PART 5. DESCRIPTION OF REQUEST

List the pertinent section(s) of the Sign Regulations and indicate the specific interpretation(s), variance(s), or nonconforming use exception(s) being requested.

"A permit to convert the sign to LED would be expanding the non-conformity of the sign and therefore wouldn't be approved".

State the grounds for the request and detail any special conditions that cause hardships that in your opinion justify the variances or exceptions being requested. Explain any unique circumstances, if applicable, not considered by the Sign Regulations:

We are proposing to update the existing pole sign in conjunction w/ a remodel of the store.

We are allowed to update the pole sign w/ new "scrollers" but would prefer a more aesthetically pleasing, and much more visible, digital pricers.

This would allow the price of gas to be more visible to drivers and also allow the sign to get on our centralized pricing system.
