

CITY COUNCIL MEMORANDUM

FROM: The Office of the City Manager **DATE:** November 11, 2024
SUBJECT: Discuss North College Circle Traffic
PRESENTER: Boe Blankenship, Director of Public Works

SUMMARY:

This item is a follow-up to the September 9 City Council Work Session, which will include staff providing data and information that were “next steps” from that September meeting. A number of documents are included with your packet to make this work session as productive as possible. The goal is to receive feedback from Council on recommended traffic calming and/or traffic control devices to be implemented along the corridor.

As part of the City Council's packet, you will find the following:

- May 2024 Traffic Data:
 - Section -1 Holiday Lane to Bogart Drive
 - Section -2 Bogart Drive to Terry Drive
 - Section -3 Terry Drive to Ross Road
- 1992 City Council Agenda item that established a multi-way stop at the intersection of North College Circle and Deaver Drive and accompanying non-warranting study and traffic data.
- 2018 Intersection Control Analysis performed by Lee Engineering.
- Riata Park Apartment layout
- Pedestrian crossing options
- Resident outreach package:
 - A letter distributed to the owners and occupants of 65 parcels identified as the most impacted by potential traffic calming devices. This letter contained a QR Code and link to the survey.
 - Traffic Calming Questionnaire
 - Map of surveyed parcels
- Survey Results:
 - Traffic calming survey responses
 - Map identifying the parcels that submitted responses.
 - Survey responses by address
- Origination / Destination Study
- Copy of September 9, 2024 Work Session Presentation
