**Park Maintenance and Operations**—Park Operations has had a busy spring season. The team has done an excellent job keeping up with daily maintenance tasks while knocking out several significant projects. Athletic seasons are wrapping up and staff have done an excellent job of navigating the frequent rain events. A significant amount of drainage and erosion control was performed at NRH20 Waterpark to protect attractions from being closed after heavy rain events. The annual tree planting project that was partially grant funded through the Texas A&M Forest Service was completed in the medians along Ironhorse Blvd. Fossil Creek Park Renovation is substantially completed, with a few small detail items remaining for staff. Operations staff also assisted with numerous events this spring including Easter in the Park, Sounds of Spring, and the 2025 Hike and Bikes.
