

## CITY COUNCIL MEMORANDUM

**FROM:** The Office of the City Manager **DATE:** June 23, 2025

**SUBJECT:** Discuss 2025 Capital Programs Advisory Committee (CPAC) committee members, meeting schedule and election timeline recommendations

**PRESENTER:** Paulette Hartman, City Manager

### **GENERAL DESCRIPTION:**

During last year's City Council strategic planning session, the City Council expressed the desire to consider future capital project needs to include additional street reconstruction projects as well as facility needs. The Council also expressed a desire to appoint a citizen committee to review the infrastructure projects and make recommendations to the City Council on which projects should be funded and whether a bond election should be called in the future to fund such projects.

The purpose of this discussion is to review the committee appointments, the committee purpose, and the proposed meeting schedule, along with the timeline for calling a future bond election should the City Council choose to do so once the Committee has completed its work.
