

# Comprehensive Annual Financial Report

Year Ended September 30, 2018

City of North Richland Hills, Texas

## **About the cover:**

TEXRail is a 27-mile commuter rail project being developed by the Trinity Metro (formerly Fort Worth Transit Authority) and is the new passenger rail service for Tarrant County. It spans from downtown Fort Worth to DFW Airport and includes two stations in North Richland Hills. Transit service began December 31, 2018.

Cover Designed by Budget and Research Department City of North Richland Hills, Texas

## **Introductory Section**

## **Department of Finance**

February 27, 2019

To the Honorable Mayor, City Council Members, City Manager, and Residents of the City of North Richland Hills, Texas:

We hereby issue the comprehensive annual financial report of the City of North Richland Hills, Texas (the "City") for the fiscal year ended September 30, 2018.

This report consists of City management's representations concerning the finances of the City. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in the report. To provide a reasonable basis for making these representations, management of the City has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City's financial statements in conformity with generally accepted accounting principles ("GAAP"). Because the cost of internal controls should not outweigh their benefits, the City's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City's financial statements have been audited by the CPA firm of Whitley Penn, LLP, the City's independent auditors. The goal of the independent audit is to provide reasonable assurance that the financial statements of the City for the fiscal year ended September 30, 2018, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded based upon the audit, that there was a reasonable basis for rendering unmodified opinions that the City's financial statements for the fiscal year ended September 30, 2018, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the City was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the City's separately issued Single Audit Report.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis ("MD&A"). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditors.

## **Profile of North Richland Hills**

The City, incorporated in 1953, is a growing community located in the heart of the Dallas/Fort Worth Metroplex. The City's estimated population is 69,600 for 2018. The City is also home to over 1,200 commercial and industrial businesses. The third largest city in Tarrant County, North Richland Hills ("NRH") is only 10 minutes from downtown Fort Worth and 25 minutes from downtown Dallas. Interstate Loop 820 and Texas 121/183 ("Airport Freeway") traverse the City, providing freeway access to five additional interstates and numerous US and state highways. The City is also conveniently located 10 minutes from Dallas/Fort Worth International Airport and 15 minutes from Alliance Airport. D/FW International Airport has over 2,000 flights daily with non-stop service to all major North American cities and many overseas destinations. The Alliance development facilitates the transport of merchandise through both the airport and the Burlington Northern/Santa Fe Intermodal Facility.

The City operates under a charter adopted in 1964 which provides for a Council-Manager form of government. The Mayor and seven Council members are elected at large. The City Council is responsible for all matters of policy as well as for levying taxes, securing revenues, authorizing expenditures of City funds, and incurring City debts. The City Manager is directly responsible to the City Council. An organizational chart follows to show the various levels of responsibility.

The City provides a full range of services. These services include police and fire protection; municipal court operations; the construction and maintenance of streets and infrastructure; parks, library, and recreational activities including tennis center operations; neighborhood services activities; planning and inspections; and the operations of a water and wastewater system, a golf course, and a public waterpark. A private contractor, through a franchise agreement, provides solid waste collection and disposal services for the City.

The annual budget serves as the foundation for the City's financial planning and control. The City maintains budgetary controls to ensure compliance with provisions in the annual budget adopted by the City Council. Annual operating budgets are adopted for the General Fund, certain Special Revenue Funds, Debt Service Funds, Enterprise Funds, and Internal Service Funds. Project-length financial plans are adopted for the Capital Project Funds. The level of budgetary control – the level at which expenditures/expenses cannot legally exceed the appropriated amount – is established at the fund level. Detail control is accomplished by maintaining appropriations, encumbrances, and expended balances by line item within each operating department, within each operating fund. All annual appropriations lapse at the end of the fiscal year. Budgetary data for proprietary funds has not been presented since reporting on such budgets is not legally required.

Prior to September 1, the City Manager submits to the City Council a proposed operating budget for the fiscal year commencing the following October 1. The operating budget includes proposed expenditures and the means of financing them. Public hearings are conducted to obtain taxpayer comments. Prior to September 30, the budget is legally enacted through passage of an ordinance. The appropriated budget is prepared by fund, department, and division. The City Manager is authorized to transfer budgeted amounts between departments within any fund. Encumbrance accounting is employed in governmental funds. Encumbrances (e.g., purchase orders, contracts) outstanding at year end are reported as reservations of fund balances and do not constitute expenditures or liabilities because the commitments will be re-appropriated and honored during the subsequent year.

Transfers of appropriations between funds are allowed by budget ordinance as passed by the City Council. Budget-to-actual comparisons are provided in the report for each individual governmental fund for which an appropriated annual budget has been adopted. For the General Fund, comparisons begin on page 85 in

the required supplementary information segment of the financial statements. The comparisons for other governmental funds with appropriated annual budgets are presented in the other supplementary information of this report.

## **Factors Affecting Financial Condition**

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City operates.

## Local economy

The City continues to grow as all major economic indicators are trending in the right direction and it remains geographically positioned as the main link between bustling downtown Fort Worth and affluent Northeast Tarrant County. Adjacent to the high socioeconomic level cities of Colleyville, Keller and Southlake; the City remains the third largest City in Northeast Tarrant County with approximately 70,000 people, and is likely to reach 80,000 residents by 2030.

Since 2010, the City has grown by 11% in total population, adding over 7,000 residents. This growth rate is parallel to the county rate, which includes the high growth areas of North Fort Worth and the city of Mansfield.

This past year also witnessed continued growth in taxable sales, taxable property values and new home starts. Compared to the previous fiscal year, taxable sales grew by 3.5%, a \$35 million increase. This figure is expected to increase in Fiscal Year 2019 as additional business opens along the central sector's Northeast Loop 820 commercial corridor and the far north sector of the City. Taxable property value grew for the 7th straight year, this time over \$563.8 million, reaching approximately \$5.16 billion in net taxable value. Finally, the City continues steady residential growth, adding another 223 new single-family homes with an average value over \$400,000 while approving 295 more lots, keeping the funnel full with over 500 shovel ready lots. Residential growth was 'by new home start' the most amongst Northeast Tarrant County cities.

The City maintains a diverse mix of 1,200 brick and mortar businesses with 14 primary employers representing 5,000 full time jobs within the healthcare, finance, aerospace and supply chain sectors. The City welcomed seven different office based businesses adding 300 professional jobs and absorbing 100,000 square feet of previously vacant office space. These new additions contributed to a reduction of the City's office vacancy rate from 20% to 13% for the year.

The City continues to experience quality commercial development and revitalization thanks to high standards and the ability to adapt and reinvent itself. Notable new businesses include Lumi Snow, Sushi Axiom, Starwood Café, Bonzai Cycle Werx, Falafel Haus and Babe's Chicken Dinner House. Commercial redevelopment is also in progress along Northeast Loop 820 as over 13 acres, representing 20% of the City's highway frontage, is now either for sale or undergoing redevelopment. This redevelopment effort continues with Sweetie Pie's Ribeyes, sister to Babe's Chicken Dinner House (schedule to open in late-2019).

Given the aforementioned economic update, 2019 is projected to be another strong year. The City enjoyed the opening of two separate commuter rail stations. The station sites are surrounded by 160 acres of unimproved property forecasted to develop with a mix of both residential and commercial uses over the next 10 years.

## Long-term financial planning

In 2012, NRH voters authorized the construction of a new City Hall. The election authorized \$48 million in general obligation debt for the project. The new facility is targeted to be a center of a new economic environment in the oldest part of the city. Located on the site of a former retail mall, the plans provide for mixed use where commercial and multi-family housing stimulate the revitalization of the area. The City Hall project was completed and occupied beginning in March 2016.

In February 2003, the voters authorized the development of 22 street projects (arterial, collector, and residential), two drainage projects, and four municipal facilities projects with the passage of four propositions in the 2003 Bond Election. The authorized election package totaled \$37,210,000 for the aforementioned projects. The City Council and management believe development of these projects is needed to improve infrastructure and provide essential services to its citizens.

At least annually, management reviews and updates long-range financial plans for the general operations of the City as well as the proprietary activities. Forecasts are prepared using conservative growth estimates for major sources of revenue. Maintaining this conservative approach, coupled with an aggressive debt repayment policy, has assisted the City in retaining a favorable bond rating since 1997. Analysis is continuously updated to reflect new bond issues and the repayment thereof, as well as updates to estimates based on new developments, historical trends, changes in applicable legal requirements, and Council and management priorities.

The plans for the internal service funds include the accumulation of resources for meeting both current and future needs. For example, facilities, fleet, and information technology support services collect user fees to meet current maintenance needs as well as to meet future capital replacement needs.

Similarly, the City's policy with regard to self-insurance premiums has been to collect sufficient amounts to cover current health and dental claims as well as additions to reserves for future claims. In fiscal years 2002 and 2003 the Self Insurance (Internal Service) Fund reserves of \$3.1 million were depleted due primarily to spiraling inflation in the health care industry and unforeseeable extraordinary health claims. In fiscal year 2004, City Council adopted a strategy to rebuild reserves over a six-year period beginning in fiscal year 2005. Savings from changes in the health care plan, transfers from existing cash reserves in the General Fund and Water and Sewer Fund, and employee premiums were used and continue to re-establish the reserves. In both 2016 and 2017, the City once again experienced significant inflationary costs and extraordinary health claims, which necessitated the use of a portion of the rebuilt reserves. Management instituted procedures to address the rising costs in both active employee and retiree health care costs. These procedures began to take effect and the reserves improved in 2018.

Similar plans for the build-up of reserves exist for the City's enterprise operations. Funds are set aside to meet future capital replacement needs such as infrastructure replacement and capital asset acquisitions. This approach has allowed the City's water and sewer operation to meet the majority of its capital replacement needs with the issuance of minimal debt. NRH<sub>2</sub>O, the City's waterpark, has funded some new attractions and infrastructure improvements by utilizing cash reserves accumulated from operations.

## Cash management policies and practices

The City's current bank depository contract with JP Morgan Chase Bank, N.A., began on October 1, 2014 and the City has exercised the option to extend the contract for an additional two years with an end date of September 30, 2019. Cash temporarily idle during the year was invested in four public funds investment pools, certificates of deposit, agency and corporate securities, and U.S. Treasury Notes.

The maturities of the investments range from overnight to three years. The average yield for overnight investments for fiscal year 2018 was 1.58%, and the weighted average maturity ("WAM") was 29 days. The average yield on all other investments for fiscal year 2018 (yield at cost) was 1.61% compared to 1.28% for the prior year. The portfolio's WAM for all other investments at the end of the fiscal year was 654 days, which represents a 22-day decrease over last year's WAM of 676 days.

At fiscal year-end approximately 47% of the portfolio was invested beyond one year, 14% was invested for one year or less, and the remaining 39% was invested in the overnight market. The City continues to use the services of PFM Asset Management, LLC as an investment advisor and overseer of the portfolio, which began on October 1, 2009.

## Risk management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. While the City has historically retained a portion of these risks, coverage exists for: general, employment practice, law enforcement, and errors and omissions liability; excess workers' compensation; property damage; commercial crime coverage; and employee life insurance. The Self-Insurance Fund is responsible for workers' compensation, health, automobile liability, and general liability insurance. The City maintains a stop loss third party insurance policy with respect to health claims. This policy covers City medical claims in excess of \$175,000 per individual per year, and/or \$11,267,460 in the aggregate for a 12-month period beginning on January 1, 2018. Self-Insurance Fund claims are funded by charges to other funds and employee, retiree, and dependent premiums. Additional information on the City's risk management activity can be found in the notes to the basic financial statements.

## Pension and other post-employment benefits

The City participates in the Texas Municipal Retirement System ("TMRS"), an agency authorized by the State of Texas. Full-time City employees contribute a fixed percentage of their gross pay (currently 7%). TMRS participants are immediately vested in the funds they contribute plus allocated interest. Participants are vested in employer contributions after five years of credited participation. If participants withdraw from TMRS prior to five years of credited participation, they may withdraw from TMRS those funds they contributed plus interest earnings. The City has historically provided postretirement health and dental care benefits for certain retirees and their dependents, but as of January 2018, that benefit has begun to be phased out when an individual reaches age 65. As of the current fiscal year, there were 178 retired employees receiving these benefits. Additional information on the City's pension arrangements and post-employment benefits can be found in the notes to the basic financial statements.

## Awards

Government Finance Officers Association of the United States and Canada ("GFOA") awarded a Certificate of Achievement for Excellence in Financial Reporting to North Richland Hills for its comprehensive annual financial report for the fiscal year ended September 30, 2017. This was the thirty-fourth consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of

Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to GFOA to determine its eligibility for another certificate.

In 2018, the City's Purchasing Division earned the annual Achievement of Excellence in Procurement Award from the National Procurement Institute. NRH is one of only 50 agencies in Texas and 68 cities in the United States and Canada to earn the 2018 award. This is the ninth year in a row the City's Purchasing Division has received this recognition.

The City also received an award in 2018 for the Fiscal Year 2018 operating budget. The Distinguished Budget Presentation award was granted to the City for the 28th consecutive year by the GFOA.

## Acknowledgments

Timely preparation of this Comprehensive Annual Financial Report was made possible by the dedicated service of the Finance Department, our independent auditors, and other City staff. We would like to express sincere appreciation to those who contributed to the process.

In closing, the continued leadership and support of the Mayor, City Council, and City Manager in planning and conducting the financial operation of the City is sincerely appreciated.

Respectfully submitted,

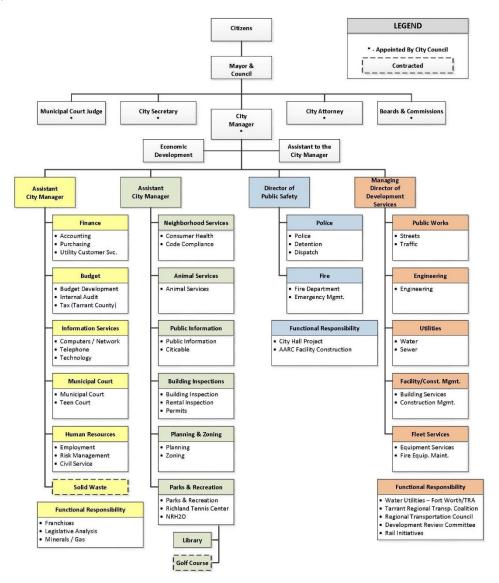

who will

Mark C. Mills

To the Honorable Mayor and Members of City Council City of North Richland Hills, Texas

## **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of North Richland Hills, Texas (the "City"), as of and for the year ended September 30, 2018, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

## Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

## **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

To the Honorable Mayor and Members of City Council City of North Richland Hills, Texas

## **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City, as of September 30, 2018, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Emphasis of Matter**

As discussed in Note IV-C, Note IV-F, and Note IV-H to the financial statements, the City adopted the provisions of Government Accounting Standards Board ("GASB") Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, as of September 30, 2018. Our opinion is not modified with respect to this matter.

### Other Matters

## Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis on pages 7 through 19, pension information on pages 87 through 88, other post-employment benefit information on page 89, and certain budget to actual schedules on pages 90 through 92 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining and individual fund statements and schedules, budget to actual schedules, and statistical section are presented for the purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund statements and budget to actual schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

To the Honorable Mayor and Members of City Council City of North Richland Hills, Texas

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

## Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 27, 2019, on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance and has been issued under separate cover.

Fort Worth, Texas February 27, 2019

Whitley FERN LLP

MANAGEMENT DISCUSSION AND ANALYSIS

Year Ended September 30, 2018

The City of North Richland Hills, Texas (the "City") Management's Discussion and Analysis ("MD&A") is designed to (a) assist the reader in focusing on significant financial issues, (b) provide an overview of the City's financial activity, (c) identify changes in the City's financial position (its ability to address the next and subsequent years' challenges), (d) identify any material deviations from the financial plan (the approved budget), and (e) identify individual fund issues or concerns.

MD&A is designed to focus on the current year's activities, resulting changes, and currently known facts, and should be read in conjunction with the City's financial statements (beginning on page 22).

## **Financial Highlights**

- The assets and deferred outflows of the City exceeded its liabilities and deferred inflows at the close of the fiscal year ended September 30, 2018 by over \$313.2 million (net position).
- The City's total net position increased by \$47.7 million due to current year activities in fiscal year 2018 from the beginning net position, as restated, of \$265.5 million. Additional details of this change may be found beginning on page 24 (Statement of Activities).
- As of September 30, 2018, the City's governmental funds reported combined fund balances of \$57,282,213, which represents a decrease of \$7.7 million in comparison to the prior fiscal year's ending balance.
- Approximately 35.9% of total governmental fund balance, or \$20,563,257, is available for appropriation at the City's discretion (assigned and unassigned fund balance).
- The City's objective regarding fund balance for the General Fund is to maintain a minimum unassigned fund balance to operate the City for a period of 60 days or 15% of the following year's appropriated budgeted expenditures. This objective was met at year end.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$11,959,306 or 26.3% of General Fund actual expenditures, including transfers out, for 2018. This unassigned balance represents 24.7% of the Fiscal Year 2019 adopted budget.
- The City's total debt decreased by approximately \$12.3 million during the fiscal year 2018. This is due to scheduled principal payments as there was no additional debt issued during the fiscal year 2018.
- The City's beginning net position was decreased by \$59.3 million due to the implementation of GASB 75, Accounting and Financial Reporting for Post-Employment Benefits Other Than Pensions, and increased by \$23.1 million due to the addition of capital assets, net of depreciation, added to the City's accounting records as a result of a water and wastewater system inventory. The changes due to GASB 75 does not affect the financial stability of the City nor does it change how the City conducts its financial decision-making. Additional details of the total prior period adjustment of \$36.2 million may be found in Note IV-H.

MANAGEMENT DISCUSSION AND ANALYSIS (continued) Year Ended September 30, 2018

## **Overview of the Financial Statements**

MD&A is intended to introduce the reader to the City's basic financial statements. The City's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. The report also contains other required supplementary information in addition to the basic financial statements.

<u>Government-wide financial statements</u> - The government-wide financial statements are designed to provide readers with a broad overview of the City's finances in a manner similar to private-sector business.

The Statement of Net Position presents information on all of the City's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial condition of the City is improving or deteriorating.

The Statement of Activities presents information showing how the City's net position changed during the fiscal year. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned, unused vacation leave). Both the Statement of Net Position and the Statement of Activities are prepared using the accrual basis of accounting as opposed to the modified accrual basis used in governmental funds.

In the Statement of Net Position and the Statement of Activities, the City's operations are separated into two types of activities:

- <u>Governmental activities</u> Most of the City's basic services are reported here, including the activities of public safety, culture and recreation, public works, and general government. Property taxes, sales taxes, and franchise fees finance most of these activities.
- <u>Business-type activities</u> For this type of activity, the City charges a fee to customers to cover all or most of the cost of services provided including the recovery of costs of capital assets used in the delivery of such services. The City's water and sewer, golf course, and aquatic park activities are reported here.

The government-wide financial statements can be found on pages 22 - 25 of the comprehensive annual financial report.

<u>Fund financial statements</u> - A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Fund financial statements provide detailed information about the most significant funds, not the City as a whole. Some funds are required to be established by state law, bond covenants, or Council ordinance. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

• Governmental funds - The majority of the City's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances available for appropriation at year-end. These funds are reported using an accounting method identified as the modified accrual basis of accounting, which measures cash and all other financial assets that can readily be converted to cash. Statements of governmental funds provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund

MANAGEMENT DISCUSSION AND ANALYSIS (continued) Year Ended September 30, 2018

information helps the reader determine whether there are more or fewer financial resources available for appropriation in the near future to finance City programs. By comparing information presented for governmental funds with similar information presented for *governmental activities* in the government- wide financial statements, readers may better understand the long-term impact of the government's near-term financing decisions. The relationship or differences between *governmental activities* (reported in the Statement of Net Position and the Statement of Activities) and governmental funds are detailed in a reconciliation following the fund financial statements.

The City maintains six major individual governmental funds. Information is presented separately in the Governmental Funds Balance Sheet and in the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances for these funds (pages 26 - 33). The General Fund, General Debt Service Fund, General Capital Projects Fund, Parks and Recreation Development Fund, Gas Development Fund, and Tax Increment Finance District No. 2 are the major governmental funds of the City. Data from the other non-major governmental funds are combined into a single, aggregated presentation in the governmental statements.

• <u>Proprietary funds</u> - The objective of proprietary funds is to charge customers, both internal and external, for services provided in an amount sufficient to cover virtually all costs including the replacement of assets used in the delivery of such services. These services are generally reported in proprietary funds. Proprietary funds are reported in the same manner that all activities are reported in the Statement of Net Position and the Statement of Activities. In fact, the City's enterprise funds (a component of proprietary funds) are almost identical to the business-type activities that are reported in the government-wide statements, but provide more detail and additional information, such as the statement of cash flows. The internal service funds (the other component of proprietary funds) are utilized to report activities that provide supplies and services for the City's other programs and activities, such as the City's facilities maintenance and construction services, fleet management, employee and property insurance coverage, and telephone and computer services. Because these services benefit both governmental and business-type functions, they have been included in both the governmental and business-type activities in the government-wide financial statements.

The City maintains three enterprise funds, which it uses to account for the provision of water and wastewater services, golf course operations, and water park activities. The City has two major proprietary funds: Utility and Aquatic Park. Golf course is considered a non-major fund. Financial statements for the enterprise funds can be found on pages 36 - 39 of the report.

<u>Notes to the financial statements</u> - The notes to the financial statements provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 43 - 83 of this report.

## **Government-Wide Financial Analysis**

The government-wide financial analysis highlights the information contained in the Statement of Net Position and Statement of Activities. The City's combined net position was \$313,154,383 as of September 30, 2018. Analyzing the net position of governmental and business-type activities separately, governmental activities total net position was \$225,368,403 and business-type activities total net position was \$87,785,980. This analysis focuses on the net position and changes in program and general revenues and significant expenses of the City's governmental and business-type activities.

MANAGEMENT DISCUSSION AND ANALYSIS (continued) Year Ended September 30, 2018

<u>Statement of Net Position</u> – The largest portion of the City's net position (92.2%) reflects its net investment in capital assets (e.g., land, buildings, machinery and equipment) less any related debt used to acquire those assets that is still outstanding. The City uses capital assets to provide services to citizens; consequently, capital assets are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these obligations. The following table presents the condensed government-wide statement of net position as of September 30, 2018 and 2017. Current and other assets include restricted deposit and investment balances.

| Total net position                   | \$                      | 225,368 | \$    | 181,833                  | \$   | 87,786  | \$    | 83,636  | \$   | 313,154 | \$    | 265,468  |

<sup>\*</sup> The prior year total net position balances have been restated to reflect the implementation of GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other than Pensions and the addition of capital assets, net of depreciation, added to the City's accounting records as a result of a water and wastewater system inventory.

<u>Statement of Activities</u> – Governmental activities increased the City of North Richland Hills' net position by \$43.5 million in fiscal year 2018, and business-type activities increased net position by \$4.2 million. The following table presents the condensed government-wide statement of activities for the years ended September 30, 2018 and 2017.

<sup>\*</sup> Implementation of GASB 75 was effective at the beginning of the 2018 fiscal year and net position was restated due to the addition of capital assets, net of depreciation, added to the City's accounting records as a result of a water and wastewater system inventory. Changes for revenues and expenses relating to these adjustments have not been calculated and are not available for comparison.

<u>Governmental activities</u> – In comparison to fiscal year 2017, overall assets for Governmental Activities increased \$2.6 million or 0.6% in 2018. Capital assets, net of depreciation, increased \$8.2 million or 2.6% in 2018. This activity was related to capital improvement projects, specifically improvements to streets and roadways. Outstanding debt liabilities decreased by \$10.7 million or 9.3% in 2018. The decrease was due to principal repayments for debt held in the governmental funds.

Governmental activities increased the City of North Richland Hills' net position by approximately \$43.5 million in fiscal year 2018. The City had an increase in tax revenues of \$3.4 million during 2018. Property and Sales tax revenues had the biggest gains of this total with increases of \$2.7 million and \$0.7 million respectively. Property taxes rose 8.9% due to an increase in the taxable base. This increase was the result of changes in existing values, plus an additional \$79.8 million in taxable value from new construction. Of the new construction value increase, residential new construction accounted for roughly 75%, while commercial represented roughly 25%. Sales taxes grew 3.4% due to continued economic recovery,

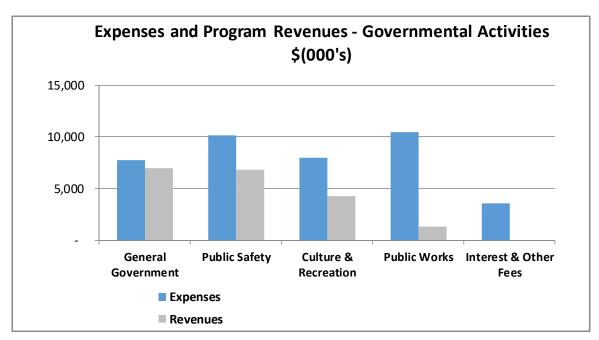

MANAGEMENT DISCUSSION AND ANALYSIS (continued) Year Ended September 30, 2018

especially from the major interstate corridor construction that caused sales tax revenues to level off in prior years.

The City did experience a slight increase in franchise fees collected from electric and natural gas providers, cable TV and telephone system operators received in 2018 compared to 2017; roughly \$77,000.

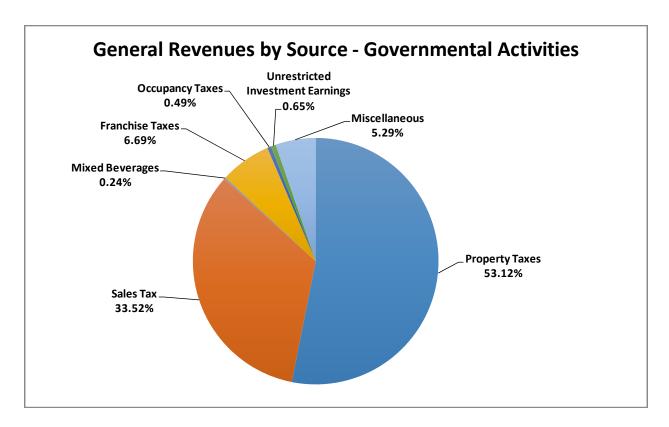

Charges for services decreased approximately \$0.6 million or 4.4% in fiscal year 2018. Operating Grants and Contributions increased approximately \$2.2 million or 44.3% in fiscal year 2018. Capital Grants and Contributions decreased approximately \$1.4 million or 86.3% in fiscal year 2018. This increase was expected due to continuation of some significant grant capital in the area of General Government, Public Safety and Public Works. Significant projects included the North Texas Anti-Gang Center, the Davis/Mid-Cities Intersection, the reconstruction of Rufe Snow Drive, the realignment of Smithfield/Davis intersection, and the completion of the Northfield Park renovation.

The Governmental activities saw a total decrease in expenses totaling approximately \$35.7 million or approximately 47.2% below 2017 levels. The primary cause of the reduction in across the board expenses from 2017 is a one-time charge for OPEB expense. This trend is not expected to continue beyond 2018 with more normal expenditure activity in future years. One non-fund specific expense, Other Post-Employment Benefits ("OPEB"), recognized only in the government-wide and proprietary fund statements, experienced a significant change in reporting from 2017. Like last year, OPEB costs continue to rise but the primary reason for the increase in the liability of \$24.9 million, or 193.7%, is a change in the GASB reporting standard which now includes estimates of future costs for 30 years as opposed to previous method of pay as you go. Depreciation expense rose \$0.04 million or 0.4%, on net fixed assets of \$326.7 million. Debt service interest and other fees expenses decreased by approximately 4.8% or \$0.2 million. Refer to the fund level financial analysis section for further details.

MANAGEMENT DISCUSSION AND ANALYSIS (continued)

Year Ended September 30, 2018

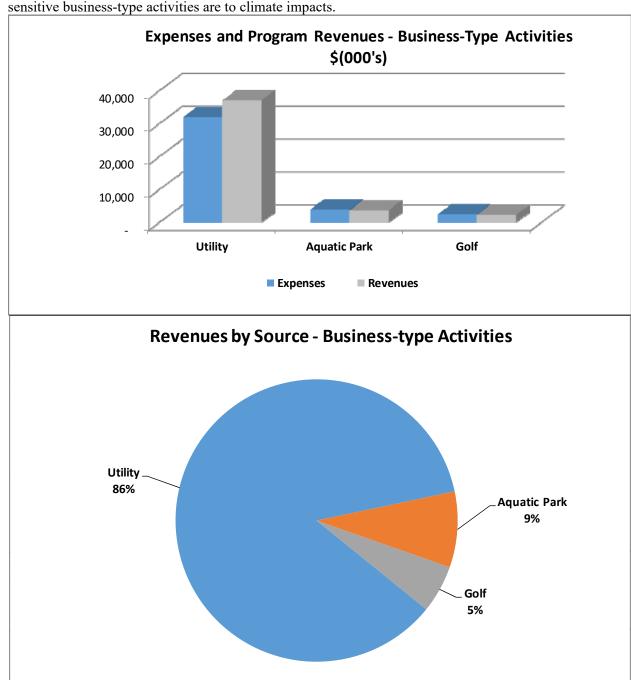

<u>Business-type activities</u> – Business-type activities resulted in an increase to the City's total net position of \$4.2 million in 2018. Overall the Utility operations (before non-operating revenues (expenses) and transfers to governmental activities) resulted in an increase in operating income of approximately \$7.5 million. Transfers out of the Utility Fund into General Funds totaling \$4.5 million, for PILOT fees, indirect fees, and administrative fees, further reduced Business-Type Activities net position. Aquatic Park experienced a decrease in net position (before non-operating revenues (expenses) and transfers to governmental activities) of approximately \$30,618. Golf course experienced a decrease in net position (before non-operating revenues (expenses) and transfers to governmental activities) of approximately \$183,974. The overall increase for Business-type activities related to Utility fund share was roughly \$2.7 million, which is inclusive of transfers out totaling \$4.5 million.

Changes in net position for Business-type activities, after non-operating revenues (expenses) and before transfers to governmental activities are as follows. Utility operations experienced an increase in income before transfers of roughly \$7.2 million with approximately \$2.1 million in asset contribution from development. Aquatic Park experienced a decrease in income before transfers of roughly \$0.2 million. The Golf course experienced a decrease in income before transfers of roughly \$0.1 million.

The Aquatic Park and Golf course operations are funded by consumers who patronize the facilities of each of these programs. The Aquatic Park saw a decrease in net position because attendance to the park did not meet expectations for the fourth consecutive year. Like Calendar 2017, 2018 was a substantially wet year in North Texas, and the prodigious rainfall drove attendance down. The City expects attendance to rebound in 2019. The Golf Course was also affected by the number of rain days in 2018.

MANAGEMENT DISCUSSION AND ANALYSIS (continued) Year Ended September 30, 2018

The decrease in net position for the Aquatic and Golf Funds was driven by weather conditions, with wet conditions impacting operations. The Utility Fund experienced higher sales in the early summer heat, which helped mitigate some of the effects of the wet weather. On the whole, the weather demonstrated how sensitive business-type activities are to climate impacts.

## **Fund Level Financial Analysis**

Governmental Funds. The focus of the City of North Richland Hills' governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, the unassigned fund balance may serve as a useful measure of a government's net resources available for discretionary use as they represent the portion of fund balance which has not yet been limited to use for a particular purpose by either an external party, the City's Council itself, or the designated individual delegated the authority to assign resources for use for particular purposes (Council Designated).

At September 30, 2018, the City's governmental funds reported combined fund balances of \$57,282,213, a decrease of \$7,738,085 in comparison with prior year. Unassigned fund balance of \$11,959,306 is available for spending at the government's discretion. The remainder of the fund balance is either non-spendable, restricted, committed, or assigned to indicate that it is 1) not in spendable form (\$171,037), 2) legally required to be maintained intact or to be used for a particular purpose (\$34,296,458), 3) committed for particular purposes (\$2,251,461), or 5) assigned for particular purposes (\$8,603,951).

The General Fund is the chief operating fund of the City. For fiscal year 2018, the General Fund unassigned fund balance was \$11,959,306 – an increase of \$1,275,832. Unassigned fund balance represents approximately 26.9% of total General Fund expenditures for 2018, while total fund balance represents 30.5%. The General Fund balance increase was due primarily to operational savings recognized at year-end.

The General Capital Projects fund decreased governmental fund balance by approximately \$14.5 million. The City did not issue any new debt in fiscal year 2018. Of the fund's \$17.8 million in expenditures, a significant portion can be attributed to the close out activities associated with the new City Hall project, the renovation of Northfield Park, as well as improvements in the public street network including Smithfield & Davis intersection, Rufe Snow & Mid-Cities improvements, Davis & Mid-Cities improvements, and Meadow Lakes & Rufe Snow intersection improvements.

General Debt Service fund increased governmental fund balance by \$29,686. The increase is associated with retirement of debt through principal and interest payments for 2018. The debt service fund had accumulated roughly \$1.8 million in fund balance by the end of 2014. City Council and City Management planned a drawdown of these funds to offset transfers out of regular operations for debt service requirements.

Parks and Recreation Development Corporation increased governmental fund balance by \$674,552. Part of that increase belongs to the NRH Centre, which experienced an increase to fund balance of \$428,343 from activity. The Gas Development fund increased governmental fund balance by \$428,343, bringing the Gas Development fund balance to \$923,859 for 2018.

<u>Proprietary Funds.</u> The proprietary funds provide the same type of information found in the government-wide financial statements.

MANAGEMENT DISCUSSION AND ANALYSIS (continued) Year Ended September 30, 2018

## **General Fund Budgetary Highlights**

Original budget compared to final budget. During the fiscal year, there were sufficient reasons to revise original estimated revenues and original appropriations. Revenue amendments resulted in an increase of \$958,775. Similarly, appropriations also increased \$958,775. Modifications were made to specific revenue projections, based on known activities and observed collection trends throughout the fiscal year. The City continues steady growth, adding another 223 new single-family homes while approving another 295 lots. Although permit activity increased from previous year, the revenue and Licenses and Permits decreased \$58,991 due to the inability to charge license permits for mechanical and electrical trades. Based on observed collection trends, Property Taxes were also increased just over \$782,691. Fine & Forfeitures decreased by \$179,969 based on projections. During the fiscal year, the City experienced lower than anticipated citation issuance, caused by specific activities related to some grant initiatives undertaken by the City and vacant positions.

An area with a modest change in the Revised from the Original Budget was Other Appropriations, which increased \$335,083. This change was appropriated for prior year encumbrances and court technology funds.

Final budget compared to actual results. Revenue sources saw negative variances in five categories - property taxes (\$81,576 or 0.48%), franchise taxes (\$43,367 or 0.86%), fines and forfeitures (\$28,259 or 1.41%), charges for services (\$53,151 or 2.31%), and intergovernmental (\$182,732 or 3.35%). The majority of the negative variance for intergovernmental revenue was due to a \$174 thousand indirect cost transfer from Aquatic that management decided not to complete in fiscal year 2018. A positive revenue variance of \$314,513 in miscellaneous revenues resulted from the sale of three rental houses. Other categories were revised upward and actual collections exceeded projections. Within Expenditures for the fiscal year, Transfers Out from General Fund exceeded budget (\$347,219) as a result of the sale of rental homes. The proceeds were placed in the General Fund and then transferred to the General Capital Projects Fund.

#### **Capital Asset and Debt Administration**

<u>Capital assets</u> - At the end of fiscal year 2018, the City had \$414.8 million (net of accumulated depreciation) invested in a broad range of capital assets including, but not limited to, police and fire equipment, buildings, park facilities, roads, bridges, aquatic park facilities, golf course assets, and the water and sewer system. The following table provides capital asset balances net of accumulated depreciation for each major category for both governmental and business-type activities for the fiscal years ending September 30, 2018 and 2017.

Capital Assets (net of Accumulated Depreciation) Amounts shown in thousands (000's)

<sup>\*</sup> Prior years utility plant amount adjusted for addition of capital assets, net of depreciation, added to the City's accounting records as a result of a water and wastewater system inventory.

This year's major additions included:

| Description                                    | Amount |           |  |
|--|--------|-----------|--|
| Buildings                                      | \$     | 64,065    |  |
| Various Street Improvements                    |        | 2,765,741 |  |
| Computer, Machinery, and Equipment             |        | 45,261    |  |
| Various Park Improvements                      |        | 5,992,440 |  |
| Various Drainage Improvement                   |        | 460,957   |  |
| Various Water/Sewer Replacement & Improvements |        | 4,049,323 |  |
| Various Vehicles                               |        | 2,856,493 |  |
| Various Land Acquisitions                      |        | 6,951     |  |

The City prepares an annual Capital Improvement Projects budget that assigns specific funds and resources for use to only these projects. Until appropriations are removed, these resources are unavailable for general operations or new capital projects.

The City currently has committed resources (displayed as Noncurrent Assets—cash and cash equivalents in the Statement of Net Position) totaling \$26,037,306 for both the Governmental and Business-type activities.

MANAGEMENT DISCUSSION AND ANALYSIS (continued) Year Ended September 30, 2018

These resources will be used to purchase major equipment, construct new buildings, and add new infrastructure such as water and sewer lines and streets. More information on capital assets can be found in footnote III.C. in the Footnotes to the financial statements.

<u>Debt</u> - At September 30, 2018 and 2017, the City had the following debt outstanding:

### Outstanding Debt Amounts shown in thousands (000's)

|                            | Governmental Activities |           | Business-Ty | pe Activities | Total     |           |  |
|----------------------------|-------------------------|-----------|-------------|---------------|-----------|-----------|--|
|                            | 2018                    | 2017      | 2018        | 2017          | 2018      | 2017      |  |
| General obligation bonds   | \$ 60,145               | \$ 66,220 | \$ 2,340    | \$ 2,755      | \$ 62,485 | \$ 68,975 |  |
| Certificates of obligation | 44,825                  | 49,485    | 12,455      | 13,615        | 57,280    | 63,100    |  |
| Capital lease              |                         |           | 175         | 260           | 175       | 260       |  |
| Totals                     | \$104,970               | \$115,705 | \$ 14,970   | \$ 16,630     | \$119,940 | \$132,335 |  |

The presently outstanding general obligation debt of the City is rated "AA2" by Moody's and "AA+" by S&P. As a home rule city, the City is not limited by law in the amount of debt it may issue. The City's Charter provides that general property taxes are limited to \$1.50 per \$100 of assessed valuation for general governmental services including the payment of principal and interest on general obligation debt. For FY 2018, the City's property tax rate is \$0.59 per \$100 assessed valuation. The current ratio of tax-supported debt to assessed value of all taxable property is 2.3%. Additional detailed information on long-term debt activity is disclosed in the notes (III-E) to the financial statements.

#### **Pensions and Retiree Health Care**

Pensions and retiree health care continue to receive negative media attention as governments around the nation struggle to fund these commitments. The City is committed to providing programs in these areas that are fair to both employees and taxpayers and that can be sustained over the long term.

Effective for fiscal year 2015, Governmental Accounting Standards Board ("GASB") Statement No. 68, "Accounting and Financial Reporting for Pensions, an amendment of GASB 27", created specific reporting requirements for pensions that are different than that used for funding purposes. Both valuations are important as the reporting valuation provides a rigorous standard measure that can be used to compare the City's pension liabilities to other governments from around the nation. The funding valuation is important because the actuarial methods used include strategies for repaying any unfunded actuarial accrued liabilities. Combined with the City's history of making those contributions, it provides insights regarding the City's commitment to and the effectiveness of its funding strategy. Information contained in the financial statements themselves including the first schedule of Required Supplementary Information ("RSI"), Schedule of Changes in Net Pension Liability and Related Ratios, is based on the reporting valuation. The second schedule in the RSI, Schedule of Contributions, is based on the funding valuation. On a reporting basis, the City's financial statements reflect a Net Pension Liability as of September 30, 2018 of \$16,768,993, which is 48.7% of the City's annual covered payroll of \$34,436,133 for the 2017 calendar year.

MANAGEMENT DISCUSSION AND ANALYSIS (continued) Year Ended September 30, 2018

Retiree health care's actuarially accrued liability has been calculated in accordance with GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, to be \$41,953,549 as of September 30, 2018, a decrease of \$8,149,883 from the previous valuation.

#### **Economic Factors and Next Year's Budgets and Rates**

The two largest revenue sources for the General Fund are property tax revenues and sales tax receipts. After working through a struggling economy, the City of North Richland Hills is finally experiencing a stabilization. Given this rise, the budget process has predicted a steady growth in property values and sales tax retail base. For budget year 2018/2019, sales tax receipts are anticipated to be roughly 2% higher than the 2017/2018 actual. Property tax values are anticipated to continue rising due to steady new construction growth plus the stabilization of property values. At this time, the City of North Richland Hills projects a 4-6% growth in property values, though a greater increase is not out of the realm of possibility.

The fiscal year 2019 budget was based on a decrease to the property tax rate from \$0.59/\$100 to \$0.585/\$100. For fiscal year 2019 the tax rate distribution amounts for maintenance & operations and interest & sinking (per \$100 assessed value) for the City are as follows:

|   |          |                       |    | Tax Rate   |  |  |
|---|----------|-----------------------|----|------------|--|--|
| Tax Rate Distribution Schedule          | <u> </u> | Tax Rate Distribution |    |            |  |  |
| General Fund - Maintenance & Operations | \$       | 0.327088              | \$ | 17,279,976 |  |  |
| Debt Service Fund - Interest & Sinking  |          | 0.257912              |    | 11,315,208 |  |  |
| Total Distribution of tax proceeds      | \$       | 0.585000              | \$ | 28,595,184 |  |  |

By policy, the City maintains an unassigned General fund balance of 15% of budgeted expenditures. The use of available fund balance for one-time expenditures eliminates the financial impact of such purchases on future budgets.

#### **Requests for Information**

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the City's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the City of North Richland Hills, Director of Finance, P.O. Box 820609, North Richland Hills, Texas 76182-0609.

### **Basic Financial Statements**

## CITY OF NORTH RICHLAND HILLS, TEXAS STATEMENT OF NET POSITION September 30, 2018

|---|-------------------|
| Amounts reported for governmental activities in the statement of net position are different because:  |                   |
| Capital assets used in governmental activities resources (excluding internal service capital assets) are not financial resources and, therefore, are not reported as net positions in governmental funds.   | 323,451,060       |
| Certain receivables are not available to pay current-period expenditures and, therefore, are reported as unavailable revenue in the funds.  | 705,504           |
| Internal service funds are used by the City's management for building and vehicle support services, self insurance, and information services. The assets, deferred outflows of resources, liabilities, and deferred inflows of resources of the internal service funds, net of amounts included in business type activities, are included with governmental activities in the Statement of Net Position but are not included at the fund level. | 6,847,300         |
| Long-term liabilities and related deferred inflows and outflows, including bonds payable, accrued interest payable, compensated absences, other post employment benefits, and net pension liability, are not due and payable in this current period and, therefore, are not reported as liabilities in the funds.   | <br>(162,917,674) |

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES Year Ended September 30, 2018

| Net change in fund balance - total governmental funds   | \$<br>(7,738,085) |
|---|-------------------|
| Amounts reported for governmental activities in the statement of activities are different because:  |                   |
| Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.  | 7,817,431         |
| The net effect of various transactions involving capital assets (i.e. sales, trade-ins, and donations) is to increase/(decrease) net position.  | 315,480           |
| Certain deferred inflows of resources were earned in prior year but not yet available for fund level activity. This increase/(decrease) is due to the deferred inflows becoming available in current year.  | 128,513           |
| Certain long-term liabilities are accrued at the government-wide level but not at the fund level. The current year change in those liabilities is reported as expense in the statement of activities. Expenses recorded for accrual of interest and amortization expense are included in this category.   | 28,956,480        |
| Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. This is the difference between repayments and proceeds received. | 11,146,785        |
| Internal service funds are used by management to charge the costs of certain activities, such as insurance and fleet maintenance, to individual funds. The net revenue (expense) of certain internal service funds is reported with governmental activities (exclusive of capital assets and debt).   | 2,908,920         |
| Change in net position of governmental activities.  | \$<br>43,535,524  |

NRH Sounds of Spring provides six weekly concerts at the NRH City Hall with free live music by some of the region's best live performers under the starts.

| Net position - ending    | \$ | 1,979,508  |  |  |

### CITY OF NORTH RICHLAND HILLS, TEXAS NOTES TO BASIC FINANCIAL STATEMENTS

#### **Note I - Summary of Significant Accounting Policies**

The City of North Richland Hills, Texas (the "City") Home Rule Charter was adopted by the voters at an election held on November 3, 1964. The City operates under a Council-Manager form of government. The City provides a full range of services including police and fire protection; municipal court operations; the construction and maintenance of streets and infrastructure; parks, library, and recreational activities including tennis center operations; neighborhood services activities; planning and inspections; and the operations of a water and wastewater system, a golf course, and a public water park. A private contractor, through a franchise agreement, provides solid waste collection and disposal services for the City.

The accounting policies of the City conform to accounting principles generally accepted in the United States of America ("GAAP") as applicable to governmental units. The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of the City are described below.

#### A. Reporting Entity

As required by GAAP, these basic financial statements present the primary government and its component units, entities for which the government is considered to be financially accountable. The blended component units, although legally separate entities, are, in substance, part of the primary government's operations. As such, data from these units is combined with data of the primary government. Discretely presented component units are entities that are legally separate from the City, but for which the City is financially accountable or whose relationships with the City are such that exclusion would be misleading or incomplete.

Blended Component Units - The North Richland Hills Parks and Recreation Facilities Development Corporation ("PRD") is used to account for the accumulation of resources to build and improve City parks and recreational facilities and fund economic development activities. The North Richland Hills Crime Control and Prevention District ("CCD") is used to account for the accumulation and use of half-cent sales tax proceeds dedicated for crime reduction programs. The PRD and CCD are reported as special revenue funds of the primary government. The Boards of Directors of both component units are substantially the same as the City Council.

Tax Increment Financing District No. 1 ("TIF #1") was created to fund drainage improvements that would alleviate flooding problems, reduce property damage associated with the flooding, and stimulate development within the zone of TIF #1. In 2008, TIF #1 was expanded to provide funding for intersection improvements and the burial of utility lines to enhance economic revitalization in the area. Tax Increment Financing District #2 ("TIF #2") was created to provide funding for public improvements that would benefit the participants in and citizens of TIF #2. These TIF's meet the criteria for blending as the City Council and TIF Boards are substantially the same. In addition, although other entities are involved in the TIF, the primary financial benefit or burden relationship is between the City and the TIF's, and management of the City has day- to-day operational responsibility for the activities of the TIF.

NOTES TO BASIC FINANCIAL STATEMENTS (continued)

#### **Note I - Summary of Significant Accounting Policies (continued)**

#### **B.** Government-Wide and Fund Financial Statements

The government-wide financial statements (*i.e.*, the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its blended component units. For the most part, the effect of interfund activity has been eliminated from these statements. However, interfund services provided and used are not eliminated in the consolidation process. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on user fees and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; and grants and contributions that are designated to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

#### C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current *financial resources measurement* focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the City.

NOTES TO BASIC FINANCIAL STATEMENTS (continued)

#### **Note I - Summary of Significant Accounting Policies (continued)**

#### C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (continued)

The City reports the following major governmental funds:

The General Fund is the City's primary operating fund. It accounts for all financial resources traditionally associated with governments which are not required to be accounted for in another fund. Major functions financed by the General Fund include general government, public safety, culture and recreation, and public works. Financing is provided from taxes (primarily property, sales, and franchise), licenses and permits, fines, and investment income.

The General Capital Projects Fund is used to account for financial resources used for the acquisition and construction of major street, drainage, and municipal facilities capital assets.

The General Debt Service Fund accounts for the accumulation of resources for the payment of principal, interest, and related charges on long-term general obligation debt of governmental funds. Financing is provided primarily by a specific annual property tax levy.

The Parks and Recreation Facilities Development Fund accounts for the accumulation and use of resources to build and improve City parks and recreation facilities as well as economic development projects. The City has permanently designated this fund as a major governmental fund.

The Gas Development Fund accounts for the accumulation and expenditures of resources from gas drilling and exploration on City owned property. The City has permanently designated this fund as a major governmental fund.

The Tax Increment Financing District #2 provides funding for public improvements that would benefit the participants in and citizens of TIF #2 as well as others in the Metroplex area.

The City reports the following proprietary funds:

The Utility Fund (a major fund) accounts for the distribution of water, transportation of wastewater, and solid waste removal services provided to the residents of the City. All activities necessary to provide such services are accounted for in the fund, including, but not limited to, administration, operations, maintenance, financing and debt service, and billing and collections.

The Aquatic Park Fund (a major fund) accounts for the operation of NRH<sub>2</sub>O, the City's public water park. All activities necessary to operate the park are accounted for in the fund, including, but not limited to, administration, park operations, park maintenance, and financing and debt service.

The Golf Course Fund accounts for the operations of Iron Horse Golf Course, the City's public golf course. All activities necessary to operate the course are accounted for in the fund, including, but not limited to, administration, operations, course maintenance, and financing and debt service. The Golf Course in the only non-major proprietary fund.

Internal Service Funds account for building maintenance services, fleet management, computer and telephone service, as well as insurance coverage provided to other departments of the City, on a cost reimbursement basis.

NOTES TO BASIC FINANCIAL STATEMENTS (continued)

#### **Note I - Summary of Significant Accounting Policies (continued)**

#### C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (continued)

The City also reports one fiduciary fund. The OPEB Trust Fund accounts for the activities of the long term funding of the City's other post-employment benefits provided. These funds are contributed by the City on an annual basis to help offset future costs and outflows for post-employment benefits payments.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds and of the internal service funds are charges to customers for sales and services. The City also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting the definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

### D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position or Fund Balance

Deposits and investments

Deposits consist of cash and cash equivalents. Substantially all operating deposits and investments are maintained in pooled deposits and investment accounts. Interest income relating to pooled deposits and investments is allocated monthly to the participating individual funds based on each fund's pro-rata share of total pooled deposits and investments.

Investments consist of (1) investments in public fund investment pools, (2) short-term investments that mature in 12 months or less from the time of purchase and (3) investments that mature in greater than 12 months from the time of purchase.

Other than investment pools, most of the City's investments are long-term (i.e., at the time of purchase, the maturity equals or exceeds one year) and, accordingly, the investments are carried at fair value. The government investment pools, TexSTAR, LOGIC, TexasTERM, and TexPool, operate in accordance with state laws and regulations. Investments in external pools are carried at either net asset value or amortized cost, as determined by each pool's individual investment valuation method and whether there is a readily determinable fair value of the pool as of the City's fiscal year end. In instances where pools transact at amortized cost, such as TexPool, no readily determinable fair value is deemed available.

NOTES TO BASIC FINANCIAL STATEMENTS (continued)

#### **Note I - Summary of Significant Accounting Policies (continued)**

## D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position or Fund Balance (continued)

Legal provisions generally permit the City to invest in certificates of deposit, repurchase agreements, public funds investment pools, direct obligations of the United States of America or its subdivisions, and state and local government securities. During the year ended September 30, 2018, the City did not own any types of securities other than those permitted by statute.

For the purposes of presenting the statement of cash flows for Proprietary Funds, cash and cash equivalents are defined as cash and the funds' investment in the City's pooled accounts which provide cash-equivalent liquidity (Note III).

#### Receivables and payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All trade and property tax receivables are shown net of an allowance for uncollectibles.

The City's property tax is levied each October 1 on the assessed value listed as of the prior January 1 for all real property and certain personal property located in the City. Tax liens attach as of February 1. Taxes are due upon receipt of the tax bill.

Property taxes are limited by the Texas Constitution to \$2.50 per \$100 of assessed valuation and by City Charter to \$1.50 per \$100 assessed valuation. The combined tax rate to finance general governmental service and debt service for the year ended September 30, 2018 was \$0.59 per \$100 of assessed valuation.

#### Inventories and prepaid items

In accordance with the consumption method of accounting, both inventories and prepaid items of governmental funds are recorded as expenditures when consumed rather than when purchased.

All inventories are valued at cost using the first-in/first-out ("FIFO") method. Inventories are offset by a fund balance reserve account in applicable governmental funds to indicate the inventory values are not available for appropriation and are not expendable financial resources.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

NOTES TO BASIC FINANCIAL STATEMENTS (continued)

#### Note I - Summary of Significant Accounting Policies (continued)

## D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position or Fund Balance (continued)

#### Restricted assets

Certain resources set aside for the repayment of outstanding City debt are classified as restricted assets on the balance sheet because their use is limited. The "debt service reserve funds" are used to segregate resources accumulated for outstanding debt. The "construction funds" account includes, but is not limited to, unspent bond proceeds that are limited as to use for financing the acquisition or construction of capital assets.

In the Utility Fund, impact fees are a restriction imposed by the City's governing body for the purpose of collection of funds from developers for specific utility infrastructure improvement projects. State of Texas Statutes grant this authority to the City Council which upon their approval is valid for a five year period. Every five years, the impact fee plan expires and a new program must be developed and submitted to Council for approval.

Also designated in the Utility Fund are customer deposits. This restriction is contractually supported. The City is not allowed to use the funds unless it is to refund back to the customer for good standing account history or that they default upon the terms of the agreement.

#### Designated assets

Assets have also been designated by management for the following:

The Crime Control and Prevention District (Special Revenue) Fund contains assets restricted for transition. The "transition" term is used to identify funds that are covered by Texas Sales Tax laws and has been restricted to offset future unforeseen circumstances (i.e. dissolution of the fund due to citizens vote to end operations of the district). If the half-cent sales tax funding CCD activities is discontinued, the restricted assets will be used to fund those activities until an alternate funding source can be identified (i.e., during the transition period).

The Information Technology (Internal Service) Fund contains assets used for future system improvements. The intended purpose is to fund major computer system software and hardware system replacements and upgrades.

The Facilities and Construction Services and Fleet Services (Internal Service) Funds contain assets used for building and equipment maintenance and replacement. The building reserve is used to accumulate funds for the implementation of the multi-year plan. The equipment reserve is used to accumulate funds for the replacement of vehicles and heavy equipment.

The Self-Insurance (Internal Service) Fund contains assets used for future insurance claims. Funds will be accumulated until needed to cover these costs of excessive claims or until management has determined sufficient funds have been accumulated to cover future claims.

NOTES TO BASIC FINANCIAL STATEMENTS (continued)

#### **Note I - Summary of Significant Accounting Policies (continued)**

## D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position or Fund Balance (continued)

Future claims of the Self-Insurance Internal Service Fund are funds set aside and obligated for medical, dental, prescription, or other risk payables that could arise in future fiscal periods. This fund has a very proactive approach to plan for future claims and ensure that funding is available to pay when and if the need occurs.

#### Capital assets

Capital assets, including property, plant, equipment, and infrastructure assets (e.g., roads, bridges, drainage facilities, parks and related improvements, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and in the proprietary fund level financial statements. Capital assets are defined by the City as assets with an initial, individual cost of at least \$5,000 and an estimated useful life in excess of one year. Assets purchased or constructed are recorded at historical cost when available or estimated historical cost if actual cost is unavailable. Donated capital assets are recorded at estimated acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Capital assets of the primary government are capitalized at the following thresholds and are depreciated using the straight-line method over the following estimated useful lives:

|   |             | C  | apitalization |
|---|-------------|----|---------------|
| Asset Category  | Useful Life | _  | Threshold     |
| Land  |             | \$ | -             |
| Buildings and improvements                                | 30 years    |    | 100,000       |
| Other improvements  | 30 years    |    | 100,000       |
| Water, sewer system and other infrastructure              | 33 years    |    | 100,000       |
| Furniture and fixtures, & certain machinery and equipment | 10 years    |    | 5,000         |
| Firetrucks and ambulances                                 | 20 years    |    | 5,000         |
| Other machinery and equipment including vehicles          | 3-12 years  | *  | 5,000         |

<sup>\*</sup>Range is due to different machinery and equipment having different levels of capitalization thresholds within fiscal policy.

NOTES TO BASIC FINANCIAL STATEMENTS (continued)

#### Note I - Summary of Significant Accounting Policies (continued)

## D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position or Fund Balance (continued)

#### Compensated absences

City employees are granted vacation leave in varying amounts depending on length of service. Sick leave is also granted to employees. In the event of termination, an employee will be paid for all unused vacation leave credit upon separation from employment with the City. Employees who are eligible to utilize their accrued vacation but who have not completed their probationary period are not eligible to be paid for unused vacation at the time of separation. No reimbursement is made for unused accumulated sick leave upon termination of employment, except upon retirement. Upon retirement, an employee may convert up to six weeks of accrued sick leave to vacation. Sick pay is recorded when taken. All vacation pay is accrued as vested and included in accrued liabilities in the government-wide and proprietary fund financial statements. Accrued vacation pay, including converted sick leave, that is expected to be liquidated within one year, is reported as a short-term liability. The remainder of the liability is reflected as long-term.

#### Long-term obligations

In the government-wide financial statements and proprietary funds financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund statement of net position. Bond premiums and discounts and losses on bond refundings are deferred and amortized over the life of the related debt.

In the fund financial statements, governmental funds recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position and/or balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure/reduction of liability) until then. The City has the following items that qualify for reporting in this category.

• Deferred loss on refunding – A deferred loss on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and recognized over the shorter of the life of the refunded or refunding debt.

NOTES TO BASIC FINANCIAL STATEMENTS (continued)

#### **Note I - Summary of Significant Accounting Policies (continued)**

### D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position or Fund Balance (continued)

- Deferred outflows of resources for other post-employment benefits ("OPEB") Reported in the government wide financial statement of net position, this deferred outflow results from OPEB plan contributions made after the measurement date of the net OPEB liability and the results of 1) differences between projected and actual earnings on OPEB plan investments and 2) changes in the City's proportional share of OPEB liabilities. The deferred outflows of resources related to OPEB resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the next fiscal year. The deferred outflows resulting from differences between projected and actual earnings on OPEB plan investments will be amortized over a closed five year period. The remaining OPEB related deferred outflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with OPEB through the plan.
- Deferred outflows of resources for pension Reported in the government wide financial statement of net position, this deferred outflow results from pension plan contributions made after the measurement date of the net pension liability and the results of 1) differences between projected and actual earnings on pension plan investments; 2) changes in actuarial assumptions; 3) differences between expected and actual actuarial experiences and 4) changes in the City's proportional share of pension liabilities. The deferred outflows of resources related to pensions resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the next fiscal year. The deferred outflows resulting from differences between projected and actual earnings on pension plan investments will be amortized over a closed five year period. The remaining pension related deferred outflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with pensions through the plan.

In addition to liabilities, the statement of financial position and/or balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue or reduction of expense) until that time. The City has the following items that qualify for reporting in this category.

- Deferred gain on refunding A deferred gain on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and recognized over the shorter of the life of the refunded or refunding debt.
- Deferred inflows of resources for other post-employment benefits ("OPEB") Reported in the government wide financial statement of net position, these deferred inflows result primarily from 1) changes in actuarial assumptions and 2) differences between expected and actual actuarial experiences. These OPEB related deferred inflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with OPEB through the plan.

NOTES TO BASIC FINANCIAL STATEMENTS (continued)

#### **Note I - Summary of Significant Accounting Policies (continued)**

### D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position or Fund Balance (continued)

• Deferred inflows of resources for pension – Reported in the government wide financial statement of net position, these deferred inflows result primarily from 1) changes in actuarial assumptions; 2) differences between expected and actual actuarial experiences and 3) changes in the City's proportional share of pension liabilities. These pension related deferred inflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with pensions through the pension plan.

Governmental Fund level statements have deferred inflows from ambulance and property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

#### Fund balance

Fund balances are reported within one of the fund balance categories list below.

- 1. *Nonspendable*, such as fund balances associated with inventories, prepaids, long-term loans and notes receivable, and property held for resale (unless the proceeds are restricted, committed, or assigned),
- 2. Restricted fund balance category includes amounts that can be spent only for specific purposes stipulated by constitution, external resource providers, or through enabling legislation,
- 3. Committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the City's Council (the city's highest level of authority),
- 4. Assigned fund balance classification are intended to be identified and authorized for specific purposes by the City's authorized representative by the Council (City Manager) and for other purposes that cannot be classified as restricted or committed,
- 5. *Unassigned* fund balance is the residual classification for the government's general fund and includes all spendable amounts not contained in the other classifications.

#### Committed Fund Balance Policy

Fund balances are committed by the City Council under specific resolutions or ordinances which were adopted to restrict the utilization of special revenue sources. Once the resolutions or ordinances are adopted, the limitation imposed remains in place until a similar action is taken (the adoption of another resolution or ordinance) to remove or revise the limitation.

NOTES TO BASIC FINANCIAL STATEMENTS (continued)

#### Note I - Summary of Significant Accounting Policies (continued)

## D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position or Fund Balance (continued)

Fund balance reporting as a result of resolutions and ordinances passed by City Council:

- General Donations or contributions to the City that do not have specific goals designated by the donor are committed by council resolution to keep the original general intent for which they were received.
- Drainage Utility Fees are to be utilized for the infrastructure or debt service for such infrastructure.
- Gas Development funds are used for specific projects for various reasons such as deemed necessary by city management.

#### Assigned Fund Balance Policy

Approved by the fund balance policy, the City's Assigned Fund Balance is under the direction of the City Manager, (as authorized by the City Council).

- Capital projects are proceeds assigned by management through budget appropriations to fund special capital projects not funded through bond proceeds,
- Recreation Centre assignment is net operations for the program for future infrastructure maintenance and operational needs,
- Encumbrances are purchases procured in the current fiscal year, but will not be delivered or services accomplished until the next fiscal year. This assignment of prior year encumbrances insures resources are available to complete the purchases.

#### Fund Balance Flow Assumptions

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted fund balance depleted before using any of the components of unrestricted fund balance. Further when the components of unrestricted fund balance can be used for the same purposes, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

#### Minimum Fund Balance

At the end of each fiscal year, the General Fund should maintain a minimum unassigned fund balance that is no less than 15% of the subsequent year's General Fund Appropriated Expenditure budget. This target amount has been established in order to provide a reasonable level of assurance that the City's day-to-day operations will be able to continue even if circumstances occur where revenues are insufficient to cover expenditures.

NOTES TO BASIC FINANCIAL STATEMENTS (continued)

#### Note II - Reconciliation of Government-Wide and Governmental Fund Financial Statements

### A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position.

The governmental fund balance sheet includes a reconciliation between fund balance – total governmental funds and net position – governmental activities as reported in the government- wide statement of net position.

One element of that reconciliation explains that "capital assets used in governmental activities (excluding internal service capital assets) are not financial resources and, therefore, are not reported as assets in governmental funds." The details of the difference are as follows:

| Capital assets, net of depreciation (internal service funds excluded) | \$<br>289,812,927 |
|---|-------------------|
| Construction in progress (internal funds excluded)                    | 33,638,133        |
| Net adjustment to increase fund balance - total governmental funds    |                   |
| to arrive at net position - governmental activities                   | \$<br>323,451,060 |

The second element of that reconciliation explains that "certain receivables are not available to pay currentperiod expenditures and, therefore, are deferred in the funds." The details of the difference are as follows:

| Unavailable revenue  | \$<br>705,504 |
|--|---------------|
| Net adjustment to increase fund balance - total governmental funds |               |
| to arrive at the position - governmental activities                | \$<br>705,504 |

Another element of that reconciliation explains that "the assets and liabilities of the internal service funds are included with governmental activities in the Statement of Net Position but are not included at the fund level." The details of the difference are as follows:

| Net position, internal service funds combined                      | \$<br>12,065,518 |
|--|------------------|
| Amount allocated to business-type activities                       | <br>(5,218,218)  |
| Net adjustment to increase fund balance - total governmental funds |                  |

NOTES TO BASIC FINANCIAL STATEMENTS (continued)

## Note II - Reconciliation of Government-Wide and Governmental Fund Financial Statements (continued)

## A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position (continued)

The last element of that reconciliation explains that "long-term liabilities (excluding internal service funds), including bonds payable and related deferred inflows and outflows of resources are not due and payable in the current period and, therefore, are not reported in the funds." The details of the difference are as follows:

| Bonds payable  | \$<br>(104,970,000) |
|--|---------------------|
| Unamortized premiums/discounts on bonds payable                  | (4,779,904)         |
| Deferred gain on refunding                                       | (98,011)            |
| Deferred loss on refunding                                       | 478,604             |
| Accrued interest payable   | (468,501)           |
| Compensated absences   | (3,469,776)         |
| Net OPEB liability   | (34,922,137)        |
| Deferred outflows - OPEB   | 1,843,878           |
| Deferred inflows - OPEB  | (73,380)            |
| Net pension liability  | (13,425,081)        |
| Deferred outflows - pension                                      | 3,708,288           |
| Deferred inflows - pension                                       | (6,741,654)         |
| Net adjustment to reduce fund balance - total governmental funds |                     |
| to arrive at net position - governmental activities              | \$<br>(162,917,674) |

## B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balance and the government-wide statement of activities.

The governmental fund statement of revenues, expenditures, and changes in fund balance includes a reconciliation between net changes in fund balance – total governmental funds and changes in net position of governmental activities as reported in the government-wide statement of activities.

One element of that reconciliation explains that "governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of the difference are as follows:

| Capital outlay in excess of capitalization threshold                               | \$<br>18,571,272 |
|--|------------------|
| Depreciation expense   | <br>(10,753,841) |
| Net adjustment to increase net changes in fund balances - total governmental funds |                  |
| to arrive at changes in net position of governmental activities                    | \$<br>7,817,431  |

NOTES TO BASIC FINANCIAL STATEMENTS (continued)

## Note II - Reconciliation of Government-Wide and Governmental Fund Financial Statements (continued)

## B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balance and the government-wide statement of activities (continued)

The next element of that reconciliation explains that "the net effects of various transactions involving capital assets (i.e. sales, trade-ins, and donations) is to decrease net position." The details of the difference are as follows:

| Asset retirements and impairments, net of proceeds                          | \$<br>(2,806,613) |
|---|-------------------|
| Capital contributions from developers                                       | <br>3,122,093     |
| Net adjustment to decrease net changes in fund balance - total governmental |                   |
| funds to arrive at changes in net position of governmental activities       | \$<br>315,480     |

The next element of that reconciliation explains that "certain revenues in the statement of activities that do not provide current financial resources are not reported as revenue in the governmental funds. These differences are the net change in deferred inflows of resources." The current year difference is \$128,513.

The next element of that reconciliation explains that "certain long-term liabilities are accrued at the government-wide level but not at the fund level." The details of the difference are as follows: (Excludes Internal Service Funds)

| Changes | ın: |
|---------|-----|

| Accrued interest/interest expense   | \$<br>(22,447)   |
|---|------------------|
| Other post employment benefits obligation   | 28,283,736       |
| Pension expense   | 826,472          |
| Compensated absences  | <br>(131,281)    |
| Net adjustment to decrease net changes in fund balance - total governmental funds |                  |
| to arrive at changes in net position of governmental activities                   | \$<br>28,956,480 |

NOTES TO BASIC FINANCIAL STATEMENTS (continued)

## Note II - Reconciliation of Government-Wide and Governmental Fund Financial Statements (continued)

C. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balance and the government-wide statement of activities (continued)

Another element of that reconciliation states that "bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. This is the difference between repayments and proceeds received." The details of the difference are as follows: (Excludes Internal Service Funds)

| Principal repayments on debt   | \$<br>10,745,000 |
|--|------------------|
| Current year amortization of bond premium, discount,                               |                  |
| deferred inflows and outflows (gain and loss)                                      | 401,785          |
| Net adjustment to increase net changes in fund balances - total governmental funds |                  |
| to arrive at changes in net position of governmental activities                    | \$<br>11,146,785 |

Another element of that reconciliation states that "the net revenue (expense) of internal service funds is reported with governmental activities." The details of the difference are as follows:

| Change in net position - internal service funds combined                           | \$<br>4,716,326 |
|--|-----------------|
| Income (Expenses) reflected in business-type activities                            | <br>(1,807,406) |
| Net adjustment to decrease net changes in fund balances - total governmental funds |                 |
| to arrive at changes in net position of governmental activities                    | \$<br>2,908,920 |

NOTES TO BASIC FINANCIAL STATEMENTS (continued)

#### **Note III - Detailed Notes on all Funds**

#### A. Deposits and investments

Deposits - The City maintains an entity wide cash and investment pool that is available for use by all funds. Each fund's portion of the pool is displayed on the statement of net position as "Cash, Cash Equivalents and Investments".

The investment policy of the City is governed by State statute and a Council adopted City Investment Policy. Major controls stipulated in the Investment Policy include: depository limitations require Federal Deposit Insurance Corporation ("FDIC") insurance or full 100 percent collateralization; depositories are limited to Texas banking institutions; all collateral for repurchase agreements and deposits held by independent third party trustees; all settlement is delivery versus payment; all authorized investments are defined; and diversification guidelines are set as are maximum maturity and maximum weighted average maturity.

State statutes require all time and demand deposits to be fully insured or collateralized. At September 30, 2018, the bank balances of the City's demand deposits were \$10,076,928. Accounts with under \$250,000 balance of either an interest bearing account or non-interest bearing account are covered by FDIC deposit insurance. The total cash held in demand deposits has been materially collateralized and meet statutes' requirements.

As of September 30, 2018, the City's investment pool portfolio (excluding bank deposits) are held by the City's custodian in the City's name under written agreements. The City's custodian is JP Morgan Chase.

The City's investment pool, excluding fiduciary funds, held the following cash, cash equivalents, and investments as of September 30, 2018:

| Cash on hand (petty cash, cashier tills)          | \$<br>11,182     |
|---|------------------|
| Demand Deposit Accounts                           | 9,265,886        |
| Investment Pools                                  | 27,152,408       |
| Commercial Paper                                  | 2,586,394        |
| U.S. Treasury Notes                               | 32,638,925       |
| U.S. Agencies and Governmental Sponsored Agencies | 22,060,673       |
| Total deposits and investments                    | \$<br>93,715,468 |

Investments - Weighted average maturity ("WAM") of the portfolio by investment type categories reflected in the following table is stated in days. Investment type acronyms displayed in the following table are defined as follows: FHLB - Federal Home Loan Bank, FHLMC - Federal Home Loan Mortgage Corporation, FNMA - Federal National Mortgage Association, and USTR - U.S. Treasury Notes. The rating agency acronym is defined as follows: S&P - Standard and Poor's Ratings Services, a division of the McGraw-Hill Companies, Inc. Additional information about the rating agency or the significance of the ratings provided may be obtained from the agency's web site.

NOTES TO BASIC FINANCIAL STATEMENTS (continued)

#### **Note III - Detailed Notes on all Funds (continued)**

#### A. Deposits and investments (continued)

Legal provisions generally permit the City to invest in certificates of deposit, repurchase agreements, public funds investment pools, direct obligations of the United States of America or its subdivisions, and state and local government securities. Because the City is responsible for the investment portfolio of its blended component units, the City's investment practices and policies disclosed herein apply equally to its component units. During the year ended September 30, 2018, the City did not own any types of securities other than those permitted by statute.

The government investment pool, TexPool, is carried at amortized cost. LOGIC, TexSTAR, and TexasTERM are carried at net asset value.

TexPool falls under the purview of the Texas Comptroller of Public Accounts ("Comptroller") who is responsible for oversight of TexPool operations. LOGIC and TexSTAR have established a governing board at least partially comprised of pool participants. TexasTERM is directed by an Advisory Board of experienced local government officials, finance directors and treasurers and is managed by a team of industry leaders that are focused on providing professional investment services to investors. Duties of the governing boards include oversight responsibility. The Comptroller and the governing boards exercise oversight of the pools' activities via daily, weekly, and monthly reporting requirements. Additionally, per the requirements of the Public Funds Investment Act ("PFIA"), all pools will maintain an AAA or equivalent rating from at least one nationally recognized rating agency. The PFIA also requires an annual examination of the financial statements of the pools by an independent certified public accounting firm.

As of September 30, 2018, the City held the following investments:

| Investment Type                                       | WAM | Rating | Rating Agency | Carrying Value |
|---|-----|--------|---------------|----------------|
| Investment Pools:                                     |     |        |               |                |
| TexPool   | 28  | AAAm   | S&P           | \$18,870,236   |
| LOGIC   | 31  | AAAm   | S&P           | 1,790,112      |
| TexSTAR   | 32  | AAAm   | S&P           | 1,588,788      |
| Texas TERM  | 34  | AAAm   | S&P           | 4,903,272      |
| Total Investment Pools                                |     |        |               | 27,152,408     |
| Commercial Paper                                      | 77  | NR     | NR            | 2,586,394      |
| U.S. Treasuries                                       | 742 | AA+    | S&P           | 32,638,925     |
| U.S. Agencies and Government Sponsored Entities:      |     |        |               |                |
| FHLB  | 516 | AA+    | S&P           | 8,445,618      |
| FHLMC   | 718 | AA+    | S&P           | 5,163,066      |
| FNMA  | 539 | AA+    | S&P           | 8,451,989      |
| Total U.S. Agencies and Government Sponsored Entities |     |        |               | 22,060,673     |
| Total Portfolio                                       |     |        |               | \$ 84,438,400  |

In accordance with GASB Statement No. 72, "Fair Value Measurement and Application," the City records investments at fair value. However, for participating interest-earning investments contracts with maturities of one year or less at time of purchase, the City reports these investments at amortized cost.

NOTES TO BASIC FINANCIAL STATEMENTS (continued)

#### **Note III - Detailed Notes on all Funds (continued)**

#### A. Deposits and investments (continued)

Interest Rate Risk – Interest rate risk is the potential for a decline in market value due to rising interest rates. In accordance with its formally-adopted investment policy, the City manages its exposure to declines in fair market value by limiting the portfolio's weighted average maturity to a maximum of 730 days. The City also employs an investment maturity laddering structure to stagger investment maturities at various monthly rungs on the ladder. This laddering structure provides the City with the ability to reinvest the proceeds from the maturities in higher-yielding securities given the proceeds are not required to meet immediate cash flow needs.

Custodial Credit Risk – Custodial credit risk is the risk that a government will not be able to recover (a) deposits if the depository financial institution fails or (b) the value of investment or collateral securities that are in the possession of an outside party if the counterparty to the investment or deposit transaction fails. To minimize such risk, the City requires collateralization of most deposits in excess of coverage, utilizes the delivery vs. payment method for investment purchases, and contracts with a third-party safekeeping agent. In conjunction with JP Morgan Chase, the City has exercised the option to accept a Federal Home Loan Bank Irrevocable Standby Letter of Credit, as the first \$10,000,000 of collateral.

Per the terms of its depository agreement, for bank deposits in excess of the coverage provided by the FDIC, the City requires the depository bank to pledge to the City securities (collateral) equal to the following percentages, as applicable, to the largest balances the City maintains in the Bank.

| Maturity of Collateral | U.S. Treasuries | Other Securities |
|------------------------|-----------------|------------------|
| 1 year or less         | 101%            | 102%             |
| 1 year to 5 years      | 102%            | 105%             |
| Over 5 years           | 103%            | 110%             |

The percentages as shown reflect the requirement based on market value of the pledged securities.

The City's depository bank also acts as its safekeeping agent per the terms of the depository contract. City policy dictates that all securities rendered for payment will be sent delivery vs. payment meaning that the funds required for purchase of a security will not be released until the safekeeping agent has received the security purchased in the City's name. No broker holds City funds. The City does not purchase securities from its depository bank or any subsidiary banks of the same bank holding company.

Credit Risk – The Credit Risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. In order to minimize credit risk, the City limits investments to those rated as to investment quality of not less than "A" or its equivalent by a nationally recognized rating firm. Diversification of the portfolio is also employed to manage credit risk. The investment policy limits the percentage of the portfolio that may be invested in any specific type of security. Ratings for the City's investments and the percentage of the total portfolio of each investment type held at the end of year can be found on the first table in this section.

NOTES TO BASIC FINANCIAL STATEMENTS (continued)

#### **Note III - Detailed Notes on all Funds (continued)**

#### A. Deposits and investments (continued)

Other Post-Employment Benefit ("OPEB") Trust Fund Investments - The City has contracted with Public Agency Retirement Services ("PARS") for trust administration and Union Bank serves as the trustee for all investments of the OPEB Trust Fund. The OPEB Plan does not have a formal policy for custodial credit risk. As of December 31, 2017 all investments are registered in the name of the OPEB Plan's custodian established through a master trust custodial agreement. The OPEB Trust Fund investments are carried at fair value of \$1,979,508 as of December 31, 2017. The investment in master trust is classified in Level 3 of the fair value hierarchy using quoted market prices of the mutual funds owned by the trust, allocated among members. The Trust's funds are invested in a mutual fund that is invested in equity, money market and fixed income mutual funds. The investment strategy of the OPEB Trust Fund is to provide current income with capital appreciation. The credit rating and weighted average maturity is not available for the pool.

- Interest Rate Risk Interest rate risk is the potential for a decline in market value due to rising interest rates. In accordance with its formally-adopted investment policy, the Trust committee has chosen to use moderate risk levels. Exposure to market fluctuations can occur, and the investment strategy is reviewed annually to insure that exposure to these market fluctuations is appropriate.
- Custodial Credit Risk Custodial credit risk is the risk that a government will not be able to recover (a) deposits if the depository financial institution fails or (b) the value of investment or collateral securities that are in the possession of an outside party if the counterparty to the investment or deposit transaction fails. The Trust is not covered by any collaterization agreement or FDIC insurance.
- Credit Risk The Credit Risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The risk tolerance chosen by the Trust is moderate. The mutual fund investment is not rated.

Fair Value of Assets – Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1 Quoted prices in active markets for identical assets or liabilities
- Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3 Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

NOTES TO BASIC FINANCIAL STATEMENTS (continued)

#### **Note III - Detailed Notes on all Funds (continued)**

#### A. Deposits and investments (continued)

#### **Recurring Measurements**

The following table presents the fair value measurements of assets recognized in the accompanying financial statements measured at fair value on a recurring basis and the level within the fair hierarchy in which the fair value measurements fall at September 30, 2018:

| September 30, 2018                               | <br>Fair Value   | A  | oted Prices in<br>etive Markets<br>for Identical<br>Assets<br>(Level 1) | Significant<br>Other<br>Observable<br>Inputs<br>(Level 2) | Uı | Significant<br>nobservable<br>Inputs<br>(Level 3) |
|--|------------------|----|---|---|----|---|
| Investments by fair value level                  |                  |    |   |   |    |   |
| U.S. Treasury Obligations                        | \$<br>32,638,925 | \$ | -   | \$ 32,638,925   | \$ | -   |
| U.S. Agency Securities                           | 22,060,673       |    | -   | 22,060,673  |    | -   |
| Investment in Master Trust                       | 1,979,508        |    | -   | -   |    | 1,979,508   |
| Commercial Paper                                 | <br>2,586,394    |    | _   | 2,586,394   |    |   |
| Total Investments by fair value level            | <br>59,265,500   | \$ | _   | \$ 57,285,992   | \$ | 1,979,508   |
| Investments measured at net asset value          |                  |    |   |   |    |   |
| TexSTAR  | 1,588,788        |    |   |   |    |   |
| LOGIC  | 1,790,112        |    |   |   |    |   |
| Texas TERM                                       | <br>4,903,272    |    |   |   |    |   |
|  | <br>8,282,172    |    |   |   |    |   |
| Investments measured at amortized cost - TexPool | <br>\$18,870,236 |    |   |   |    |   |
| Total investments                                | \$<br>86,417,908 |    |   |   |    |   |

Certain investments that are measured using the net asset value per share (or its equivalent) practical expedient or amortized cost have not been classified in the fair value hierarchy. The fair value amounts included above approximate net asset value for all related external investment pool balances.

#### Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. At September 30, 2018, no investments are held by the City meeting the Level 3 hierarchy classification.

#### Investments in State Investment Pools

During the year, the City invested in multiple public investment pools, including TexSTAR, LOGIC, TexasTerm, and TexPool. TexSTAR, LOGIC, and TexasTerm are measured at net asset value and are designed to approximate the share value, while TexPool is measured at amortized cost. Each pool's governing body is comprised of individuals who are employees, officers, or elected officials of participants in the funds or who do not have a business relationship with the fund and are qualified to advise. Investment objective and strategies of the pools are to seek preservation of principal, liquidity and current income through investment in a diversified portfolio of short-term marketable securities. Pools offer same day access to investment funds.

#### **Construction Commitments**

The City has active construction projects as of September 30, 2018. The projects include street construction, widening, and streetscaping; as well as construction of drainage facilities, parks and park improvements, and municipal facilities. At year-end the City's commitments with contractors were as follows:

|   |               | Expended to   |               |  |  |
|---|---------------|---------------|---------------|--|--|
|   | Project       | September 30, |               |  |  |
|   | Authorization | 2018          | Committed     |  |  |
| Streets, drainage, public safety, park improvements,      |               |               |               |  |  |
| municipal facilities, equipment, and utility improvements | \$ 75,748,144 | \$ 34,622,495 | \$ 41,125,649 |  |  |

Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. At year end the amount of encumbrances expected to be honored upon performance by the vendor in the next year were as follows:

| General fund          | \$<br>285,135   |
|-----------------------|-----------------|
| Capital projects fund | <br>4,896,882   |
| Total                 | \$<br>5,182,017 |

NOTES TO BASIC FINANCIAL STATEMENTS (continued)

#### **Note III - Detailed Notes on all Funds (continued)**

#### D. Interfund Receivables, Payables, and Transfers

At September 30, 2018, current interfund balances consisted of the following:

|                          | I  | nterfund  | I       | nterfund |  |
|--------------------------|----|-----------|---------|----------|--|
|                          | R  | eceivable | Payable |          |  |
| Governmental:            |    |           |         |          |  |
| General Fund             | \$ | 552,308   | \$      | -        |  |
| Other governmental       |    | -         |         | 552,308  |  |
| Total governmental funds | \$ | 552,308   | \$      | 552,308  |  |

In fiscal year 2018, the City approved a long-term interfund loan payable to be paid in future years from the Aquatic Park to the Self-Insurance fund. The original amount of the loan was \$500,000 and the amount outstanding as of September 30, 2018 was \$500,000.

Transfers In/Out amounts for Governmental and Proprietary Funds are as follows:

|                             | Transfer in: |     |               |                    |         |             |         |              |         |       |             |    |            |

#### Governmental

In 2018, the General Fund received a net transfer of \$5,691,906 from other funds in the government. Transfers in of \$2,021,484 were received to offset operating and debt service impacts associated with the City Hall project from funds previously set aside for that purpose. Parks and Recreation Development Corporation transferred \$500,885 for indirect cost and to cover its portion of a sales tax based economic development incentive. The Crime Control District Fund also provided a transfer of \$114,438 for its share of the same sales tax based economic development incentive. The Utility fund transferred \$4,167,859 for payment for administration fees, payment in lieu of tax, and franchise fees.

During FY 2018, the General Fund transferred out to other funds a total of \$1,112,760. Transfers to General Capital Funds included \$517,712 for Streets and Sidewalks and Information Services capital projects. An operational supplement transfer of \$487,102 to the NRH Centre and \$82,725 was transferred to Informational Services Fund for a position related to the Communications / Detention consolidation. An additional \$25,221 was transferred from the General Fund for local required funding for grants.

NOTES TO BASIC FINANCIAL STATEMENTS (continued)

#### **Note III - Detailed Notes on all Funds (continued)**

#### D. Interfund Receivables, Payables, and Transfers (continued)

General Capital Projects received \$517,712 from the General Fund for permanent street and sidewalk maintenance, drainage, information services projects, neighborhood reinvestments and facility construction projects. Parks and Recreation Development transferred \$871,284, including \$205,000 in impact fees, for new park facilities and infrastructure. Drainage Utility Fund transferred \$924,901 for drainage projects and Internal Service funds transferred \$613,716 for the purchase of machinery and equipment. Utility Fund transferred \$150,000 for general economic development projects.

General Debt Service received transfers from self-supporting debt repayment sources each year. Parks and Recreation Development Corporation and Other Governmental transferred \$627,685 and \$362,674 respectively.

Parks and Recreation Development Corporation received a transfer for the General Fund's annual contribution for Recreation Centre operations in the amount of \$487,102.

Non-Major Governmental funds received additional funding for economic development projects from the Parks and Recreation Development Fund in the amount of \$128,514. \$425,023 was received from the General Capital Projects fund for the required local share for grants.

#### **Proprietary**

Internal Service Funds received additional funding to help offset non-capital project related costs above normal operations. Specifically, these transfers went to the Information Technology Fund and were respectively \$82,725 (General Fund) and \$175,000 (Utility Fund).

#### E. Long-term debt

#### General Obligation Bonds

The City issues general obligation bonds to provide funds for the acquisition and construction of major capital assets such as streets, drainage structures, and municipal facilities, as well as for the purpose of refunding a portion of its outstanding debt. The City did not issue any bonds in the current fiscal year.

In prior year, the government defeased certificate of obligation bonds by placing the proceeds of the new bonds in an irrevocable trust account to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the government's financial statements. At September 30, 2018, the City did not have any defeased bonds outstanding.

NOTES TO BASIC FINANCIAL STATEMENTS (continued)

#### Note III - Detailed Notes on all Funds (continued)

#### E. Long-term debt (continued)

General obligation bonds currently outstanding are as follows:

|                          | Interest     | terest Principal |            |
|--------------------------|--------------|------------------|------------|
| Purpose                  | Rates        |                  | Amount     |

#### Certificates of Obligation

The City also issues certificates of obligation ("CO's") to finance the acquisition and construction of capital assets including certain capital improvement projects, municipal facilities, and machinery and equipment. The bonds are generally issued as 20-year serial bonds with equal amounts of principal maturing each year.

Certificates of Obligation bonds currently outstanding are as follows:

|                          | Interest     | Principal        |
|--------------------------|--------------|------------------|
| Purpose                  | Rates        | <br>Amount       |

#### Capital Leases

Golf Fund entered into a lease agreement as lessee for the financing the acquisition of golf cart equipment originally valued at \$336,793. The equipment has a four year estimated useful life with a remaining net book value of \$175,413. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of future minimum lease payments as of the inception date.

The future minimum lease obligations and the net present value of these minimum lease payments were as follows:

| Year Ending                  |               |
|------------------------------|---------------|
| September 30,                |               |

The liability for compensated absences, other post-employment benefits, and pensions is liquidated by the General Fund by approximately 82 percent. The Utility Fund, Aquatic Park Fund, and Internal Service Funds normally liquidate 8 percent, 2 percent, and 8 percent, respectively.

NOTES TO BASIC FINANCIAL STATEMENTS (continued)

#### **Note IV - Other Information**

#### A. Risk Management

The government is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. While the City has historically retained a portion of these risks, coverage exists for: general, employment practice, law enforcement, and errors and omissions liability; excess workers' compensation; property damage; commercial crime coverage; and employee life insurance. Premiums are paid into the self-insurance internal service fund by all other participating funds and are available to pay claims, claim reserves, and administrative costs of the program.

Liabilities of the fund are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for health and dental as well as workers' compensation claims that have been incurred but not reported ("IBNR"). The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, such as inflation, changes in legal doctrines, and damage awards. Accordingly, claims are reevaluated periodically to consider the effects of inflation, recent claim settlement trends (including frequency and amount of payouts), and other economic and social factors. An excess coverage medical insurance policy covers individual claims in excess of \$175,000 and/or \$9,445,195 in the aggregate for a 12-month period beginning on January 1, 2018. Changes in the balances of claims liabilities during the past two years are as follows:

|                                  | <br>2018        | <br>2017        |
|----------------------------------|-----------------|-----------------|
| Unpaid claims, beginning of year | \$<br>1,507,358 | \$<br>1,320,348 |
| Incurred claims (including IBNR) | 10,216,791      | 10,265,308      |
| Claim expense                    | (10,475,123)    | (10,078,298)    |
| Unpaid claims, end of year       | \$<br>1,249,026 | \$<br>1,507,358 |

#### **B.** Contingent Liabilities

The City is a defendant in certain lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the City's counsel the resolution of these matters will not have a material adverse effect on the financial condition of the City.

#### C. Postemployment Benefits

The City offers its employees a deferred compensation plan (the "Plan") created in accordance with Internal Revenue Code Section 457. The Plan is administered by Public Employees Benefit Services Corporation. In 1998, the City implemented the requirements of GASB No. 32, Accounting and Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans. In accordance with this statement and tax law, the City has amended its trust agreements which establish that all assets and income of the trust are for the exclusive benefit of eligible employees and their beneficiaries. Due to the implementation of these changes, the City does not have any fiduciary responsibility or administrative duties relating to the deferred compensation plan other than remitting employees' contributions to the trustees. Accordingly, the City has not presented the assets and liabilities of the Plan in these basic financial statements.

NOTES TO BASIC FINANCIAL STATEMENTS (continued)

#### **Note IV - Other Information (continued)**

#### C. Postemployment Benefits (continued)

Retiree Healthcare Plan

Plan Description - The City of North Richland Hills Retired Employees Healthcare Plan ("NRHREHP") is a single-employer defined benefit healthcare plan and is self-administered through an internal oversight committee (appointed by the City Manager through conveyed authority from City Council). NRHREHP provides medical, prescription, and dental insurance benefits to eligible retirees and their spouses. City council is the authoritative body granting health care benefits for both active and retired employees. The City provides postretirement health and dental care benefits for retirees and their dependents. The City does not have a separate audited generally accepted accounting principles financial report for the retiree health plan.

Benefits Provided – Full-time employees of the City who meet the City's requirements are eligible to participate in the retiree health care plan. Upon terminating from active service, employees must have separated in "good standing", be eligible to retire under the Texas Municipal Retirement System (age 60 with 5 years of service or 20 years of service at any age) with the declared intent to begin to receive an annuity check from TMRS, and must have been covered until the City's health plan on the retiree's last day of active employment. Reduced premium rates for medical and dental coverage are offered to eligible retirees that have attained age 55 at retirement and meet one of the following plan rules:

| Plan Rule   | Multiplier |
|-------------|------------|
| 90 Plan     | 1.00       |
| 85 Plan     | 1.25       |
| 80 Plan     | 1.50       |
| Access Plan | 1.75       |

To be eligible for the 90 Plan, 85 Plan or 80 Plan, retirees must have attained the applicable combined number of years of service plus age at time of retirement. To be eligible for the Access Plan, retirees must have attained age 60 with at least 10 years of service. Service requirements are based on continuous service with the City of North Richland Hills. Pre-65 medical premiums for 90 Plan retirees will be set to 20% of the total cost. Dental premiums for 90 Plan retirees are also reduced. For retirees that meet one of the other Plan Rules, applicable multiplier is applied to the premium rates for 90 Plan retirees. Medical coverage through the City's pre-65 health plan ceases when retirees/spouses become eligible for Medicare benefits. Vision benefits are available to retirees through a fully-insured plan in which retirees pay 100% of the vision premiums. The City does not provide life insurance coverage for retirees or their dependents.

At December 31, 2017, valuation and measurement date, the following employees were covered by the benefit terms:

| Membership                   |     |
|------------------------------|-----|
| Retirees and beneficiaries   | 178 |
| Inactive, nonretired members | 0   |
| Active members               | 539 |
| Total                        | 717 |

NOTES TO BASIC FINANCIAL STATEMENTS (continued)

#### **Note IV - Other Information (continued)**

#### C. Postemployment Benefits (continued)

Contributions - The contribution requirements of plan members and the City are established and may be amended by the City Council members. The required contribution is based on projected pay-as-you-go financing requirements, with an additional amount to prefund. For plan year 2017, the City contributed a total of \$2,292,748 to the plan for benefit payments. Of the \$2,292,748, \$100,000 was contributed to the OPEB Trust and \$2,192,748 was for health insurance benefit payments.

Net OPEB Liability - The City's net OPEB liability ("NOL") was measured as of December 31, 2017 and the total OPEB liability ("TOL") used to calculate the NOL was determined by an actuarial valuation as of that date.

Actuarial Assumptions - The TOL in the December 31, 2017 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date: December 31, 2017

Methods and Assumptions:

Actuarial Cost Method Individual Entry-Age

Single Discount Rate 3.71% as of December 31, 2017

Inflation 2.50%

Salary Increases 3.50% to 10.50%, including inflation

Demographic Assumptions Based on the experience study covering the four-year period ending December 31, 2014 as

conducted for the Texas Municipal Retirement System (TMRS)

Mortality For healthy retirees, the gender-distinct RP2000 Combined Healthy Mortality Tables with

Blue Collar Adjustment are used with male rates multiplied by 109% and female rates multiplied by 103%. The rates are projected on a fully generational basis by scale BB to

account for future mortality improvements.

Health Care Trend Rates Pre-65: Initial rate of 7.50% declining to an ultimate rate of 6.00% after 7 years;

Pre-65: Ultimate trend rate includes a 1.75% adjustment for the excise tax;

Post-65: Initial rate of 6.50% declining to an ultimate rate of 4.25% after 15 years

Participation Rates 85% for retirees meeting eligibility requirements for the 90 Plan;

75% for retirees meeting eligibility requirements for the 85 Plan; 60% for retirees meeting eligibility requirements for the 80 Plan; 60% for retirees meeting eligibility requirements for the Access Plan

Other Information:

Notes The Single Discount Rate changed from 3.88% as of December 31, 2016 to 3.71% as of

December 31, 2017.

Discount Rate - Projected benefit payments are required to be discounted to their actuarial present values using a Single Discount Rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met). For the purpose of this valuation, the expected rate of return on OPEB plan investments is 6.50%; the municipal bond rate is 3.31%; and the resulting Single Discount Rate is 3.71%.

Basis of Allocation - OPEB items are allocated between governmental activities and business-type activities on the basis of employee payroll funding. For the year ended September 30, 2018, those percentages were 90% and 10%, respectively, which approximated the prior year's allocations.

| Balance at December 31, 2017            | \$<br>43,780,597                    | \$<br>1,827,048                     | \$41,953,549                            |

Changes of benefit terms reflect the phase out of Medicare plan subsidies and restructured eligibility requirements and subsidy levels for the City's pre-65 health plan. Changes of assumptions reflect a change in the Single Discount Rate from 3.88% as of December 31, 2016 to 3.71% as of December 31, 2017.

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability of the City, calculated using the discount rate of 3.71%, as well as what the City's net OPEB liability would be if it were calculate using a discount rate that is 1-percentage-point lower (2.71%) or 1-percentage higher (4.71%) than the current rate:

|                           | 1%           | 1% Increase |         |              |              |

OPEB Plan Fiduciary Net Position - Detailed information about the OPEB's plan Fiduciary Net Position is available in the basic financial statements section of the City of North Richland Hills Comprehensive Annual Financial Report for the year-ended September 30, 2018.

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended September 30, 2018, the City recognized a negative OPEB expense of \$30,059,659.

At September 30, 2018, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

|                                  |    | Deferred    |       |            |
|----------------------------------|----|-------------|-------|------------|
|                                  | C  | outflows of | Defen | ed Inflows |
|                                  | 1  | Resources   | of R  | esources   |
| Difference in assumption changes |    | 588,996     |       | -          |
| Differences between expected and |    |             |       |            |
| actual experience                |    | -           |       | 88,154     |
| Contributions subsequent to the  |    |             |       |            |
| measurement date                 |    | 1,626,140   |       |            |
|                                  | \$ | 2,215,136   | \$    | 88,154     |
|                                  |    |             |       |            |

\$1,626,140 reported as deferred outflows of resources related to OPEB resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability for the year ending September 30, 2019. Other amounts reported as deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

#### D. Employee Retirement System and Pension Plan

Plan Description - The City of North Richland Hills participates as one of 883 plans in the nontraditional, joint contributory, hybrid agent multiple-employer defined benefit pension plan administered by the Texas Municipal Retirement System ("TMRS"). TMRS is an agency created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the "TMRS Act") as an agent multiple-employer retirement system for municipal employees in the State of Texas. The TMRS Act places the general administration and management of the System with a six-member Board of Trustees. Although the Governor, with the advice and consent of the Senate, appoints the Board, TMRS is not fiscally dependent on the State of Texas. TMRS's defined benefit pension plan is a tax-qualified plan under Section 401 (a) of the Internal Revenue Code. TMRS issue a publically available comprehensive annual financial report ("CAFR") that can be obtained at <a href="https://www.tmrs.org">www.tmrs.org</a>.

All eligible employees of the city are required to participate in TMRS.

Benefits Provided - TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS.

At retirement, the benefit is calculated as if the sum of the employee's accumulated contributions, with interest, and the city-financed monetary credits with interest were used to purchase an annuity. Members may choose to receive their retirement benefit in one of seven payments options.

Members may also choose to receive a portion of their benefit as a Partial Lump Sum Distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75% of member's deposits and interest.

Benefits depend upon the sum of the employees' contributions to the plan, with interest, and the City-financed monetary credits, with interest. At the date the plan began, the City granted monetary credits for service rendered before the plan began of a theoretical amount equal to two times what would have been contributed by the employee, with interest, prior to establishment of the plan. Monetary credits for service since the plan began are a percent (100%, 150% and 200%) of the employee's accumulated contributions. In addition, the City can grant, as often as annually, another type of monetary credit referred to as an updated service credit. An updated service credit is a theoretical amount which, when added to the employee's accumulated contributions and the monetary credits for service since the plan began, would be the total monetary credits and employee contributions accumulated with interest if the current employee contribution rate and City matching percent had always been in existence and if the employee's salary had always been the average of his salary in the last three years that are one year before the effective date.

Members can retire at ages 60 and above with 5 or more years of service or with 20 years of service regardless of age. A member is vested after 5 years. The plan provisions are adopted by the City Council, within the options available in the state statutes governing TMRS and within the actuarial constraints also in the statutes.

NOTES TO BASIC FINANCIAL STATEMENTS (continued)

#### **Note IV - Other Information (continued)**

#### D. Employee Retirement System and Pension Plan (continued)

As the December 31, 2017 valuation and measurement date, the following employees were covered by the benefit terms:

| Inactive employees or beneficiaries currently receiving benefits | 355   |
|--|-------|
| Inactive employees entitled to but not yet receiving benefits    | 292   |
| Active employees   | 540   |
|  | 1,187 |

Contributions - The contribution rates for employees in TMRS are either 5%, 6%, or 7% of employee gross earnings, and the city matching percentages are either 100%, 150%, or 200%, both as adopted by the governing body of the city. Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the Entry Age Normal ("EAN") actuarial cost method. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Employees for the City were required to contribute 7% of their annual gross earnings during the fiscal year. The contribution rates for the City were 16.33% and 16.12% in calendar years 2017 and 2018, respectively. The City's contributions to TMRS for the year ended September 30, 2018 were \$5,727,471, and were equal to the required contributions.

Net Pension Liability - The City's net pension liability ("NPL") was measured as of December 31, 2017, and the total pension liability ("TPL") used to calculate the net pension liability was determined by an actuarial valuation as of that date.

#### Actuarial assumptions:

The total pension liability in the December 31, 2017 actuarial valuation was determined using the following actuarial assumptions:

Inflation 2.5% per year (3.0% in prior year)

Overall payroll growth 3.0% per year

Investment Rate of Return 6.75%, net of pension plan investment expense, including inflation

Salary increases were based on a service-related table. Mortality rates for active members, retirees, and beneficiaries were based on the gender-distinct RP2000 Combined Healthy Mortality Tables with Blue Collar Adjustment, with male rates multiplied by 109% and female rates multiplied by 103%. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements. For disabled annuitants, the gender-distinct RP2000 Disabled Retiree Mortality Tables with Blue Collar Adjustment are used with males rates multiplied by 109% and female rates multiplied by 103% with a 3year set-forward for both males and females.

77

NOTES TO BASIC FINANCIAL STATEMENTS (continued)

#### **Note IV - Other Information (continued)**

#### D. Employee Retirement System and Pension Plan (continued)

In addition, a 3% minimum mortality rate is applied to reflect the impairment for younger members who become disabled. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements subject to the 3% floor.

Actuarial assumptions used in the December 31, 2017, valuation were based on the results of actuarial experience studies. The experience study in TMRS was for the period January 1, 2010 through December 31, 2014. Healthy post-retirement mortality rates and annuity purchase rates were updated based on a Mortality Experience Investigation Study covering 2009 through 2011, and dated December 31, 2013. These assumptions were first used in the December 31, 2013 valuation, along with a change to the Entry Age Normal ("EAN") actuarial cost method. Assumptions are reviewed annually. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income, in order to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investment was determined using a building-block method in which best estimate ranges of expend future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. In determining their best estimate of a recommended investment return assumption under the various alternative asset allocation portfolios, GRS focused on the area between (1) arithmetic mean (aggressive) without an adjustment for time (conservative) and (2) the geometric mean (conservative) with an adjustment for time (aggressive). The target allocation and best estimates of arithmetic real rates of return for each major asset class in fiscal year 2018 are summarized in the following table:

|                       |                   | Long-Term      |
|-----------------------|-------------------|----------------|
|                       |                   | Expected Real  |
|                       |                   | Rate of Return |
| Asset Class           | Target Allocation | (Arithmetic)   |
| Domestic Equity       | 17.5%             | 4.55%          |
| International Equity  | 17.5%             | 6.35%          |
| Core Fixed Income     | 10.0%             | 1.00%          |
| Non-Core Fixed Income | 20.0%             | 3.90%          |
| Real Return           | 10.0%             | 3.80%          |
| Real Estate           | 10.0%             | 4.50%          |
| Absolute Return       | 10.0%             | 3.75%          |
| Private Equity        | 5.0%              | 7.50%          |
| Total                 | 100.0%            |                |

Discount Rate - The discount rate used to measure the total pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTES TO BASIC FINANCIAL STATEMENTS (continued)

#### **Note IV - Other Information (continued)**

#### D. Employee Retirement System and Pension Plan (continued)

Basis of Allocation - Pension items are allocated between governmental activities and business-type activities on the basis of employee payroll funding. For the year ended September 30, 2018, those percentages were 90% and 10%, respectively, which approximated the prior year's allocations.

Changes in Net Pension Liability

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended September 30, 2018, the City recognized pension expense of negative \$5,016,713.

At September 30, 2018, the City reported deferred outflows of resources and deferred inflows of resources related to pension from the following sources:

|                                      | Deferr | red Outflows of | Defe      | red Inflows of |  |
|--------------------------------------|--------|-----------------|-----------|----------------|--|
|                                      | I      | Resources       | Resources |                |  |
| Net difference between projected and |        |                 |           |                |  |
| actual investment earnings           | \$     | -               | \$        | 5,846,709      |  |

#### E. Tax Incentive Rebates

The City of North Richland Hills has three (3) active Commercial Development and Job Related Incentive Rebates that develop or redevelop a particular property attracting business that generates incremental tax revenues. The agreements are subject to Chapter 380 of the Texas Local Government Code that promotes local economic development, commercial activity and business stimulation. City Council approves the agreements via resolution. As part of the agreement, the City agrees to rebate the tax valorem tax increment and the local sales tax after confirmation of payment. If the businesses do not meet the obligations as set forth in the agreement, a clawback provision for default on agreement is included in the agreement and the business agrees return a percentage of the rebate back to the City. Total rebate of taxes as of September 30, 2018 was \$211,948.

#### F. New Accounting Pronouncements Adopted in 2017:

GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. This Statement replaces the requirements of Statement 45 and requires governments to report a liability on the face of the financial statements for the OPEB that they provide. Statement 75 requires governments in all types of OPEB plans to present more extensive note disclosures and required supplementary information ("RSI") about their OPEB liabilities. Among the new note disclosures is a description of the effect on the reported OPEB liability of using a discount rate and a healthcare cost trend rate that are one percentage point higher and one percentage point lower than assumed by the government. The new RSI includes a schedule showing the causes of increases and decreases in the OPEB liability and a schedule comparing a government's actual OPEB contributions to its contribution requirements.

GASB Statement No. 85, *Omnibus 2017*. This Statement establishes accounting and financial reporting requirements for blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits).

GASB Statement No. 86, Certain Debt Extinguishment Issues. This Statement establishes standards of accounting and financial reporting for in-substance defeasance transactions in which cash and other monetary assets acquired with only existing resources—that is, resources other than the proceeds of refunding debt—are placed in an irrevocable trust for the purpose of extinguishing debt. This Statement also amends accounting and financial reporting requirements for prepaid insurance associated with debt that is extinguished, whether through a legal extinguishment or through an in substance defeasance, regardless of how the cash and other monetary assets were acquired. Finally, this Statement establishes an additional disclosure requirement related to debt that is defeased in substance, regardless of how the cash and other monetary assets were acquired.

NOTES TO BASIC FINANCIAL STATEMENTS (continued)

#### **Note IV - Other Information (continued)**

#### **G.** Implementation of Future GASB Statements

The Governmental Accounting Standards Board ("GASB") has issued the following new statements to be implemented in future years.

GASB Statement No. 83, Certain Asset Retirement Obligations. This statement establishes uniform criteria for governments to recognize and measure certain asset retirement obligations ("ARO"s). An ARO is defined as a legally enforceable liability associated with the retirement of a tangible capital asset. Examples could be costs associated with decommissioning a nuclear power plant or disposal of x-ray machine. An ARO is recognized when the liability is incurred, which is manifested by the occurrence of both an external obligating event (such as a legally binding contract or a court judgment) and an internal obligating event (such as placing a tangible capital asset into service). A government also recognizes a deferred outflow of resources when it recognizes an ARO liability. The ARO is measured at the best estimate of the current value of outlays expected to be incurred. Additional note disclosures are required. This standard becomes effective for the City in fiscal year 2019.

GASB Statement No. 84, *Fiduciary Activities*. This statement establishes criteria for identifying fiduciary activities. It presents separate criteria for evaluating component units, pension and other postemployment benefit arrangements, and other fiduciary activities. The focus is on a government controlling the assets of the fiduciary activity and identification of the beneficiaries of those assets. Fiduciary activities are reported in one of four types of funds: pension (and other employee benefit) trust funds, investment trust funds, private-purpose trust funds, or custodial funds. Custodial funds are used to report fiduciary activities that are not held in a trust. The agency fund designation will no longer be used. GASB 84 also provides guidance on fiduciary fund statements and timing of recognition of a liability to beneficiaries. This standard becomes effective for the City in fiscal year 2020.

GASB Statement No. 87, *Leases*. This statement provides a new framework for accounting for leases under the principle that leases are financings. No longer will leases be classified between capital and operating. Lessees will recognize an intangible asset and a corresponding liability. The liability will be based on the payments expected to be paid over the lease term, which includes an evaluation of the likelihood of exercising renewal or termination options in the lease. Lessors will recognize a lease receivable and related deferred inflow of resources. Lessors will not derecognize the underlying asset. An exception to the general model is provided for short-term leases that cannot last more than 12 months. Contracts that contain lease and non-lease components will need to be separated so each component is accounted for accordingly. This standard becomes effective for the City in fiscal year 2021. However, the City has elected to early implement this standard in fiscal year 2019.

GASB Statement No. 89, Accounting for Interest Cost Incurred before the End of a Construction Period. This Statement establishes accounting requirements for interest cost incurred before the end of a construction period. This standard becomes effective for the City in fiscal year 2021. However, the City has elected to early implement this standard in fiscal year 2019.

#### **Note IV - Other Information (continued)**

#### H. Prior Period Adjustment

Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions." – This statement changes the focus of accounting of postemployment benefits other than pensions from whether they are responsibly funding the benefits over time to a point-in-time liability that is reflected on the employer's financial statements for any actuarially underfunded portion of benefits earned to date. The implementation of GASB Statement No. 75 resulted in restatement of beginning net position for removal of the OPEB liability previously recorded under GASB Statement No. 45, the recording of the total OPEB liability under Statement No. 75, and the beginning deferred outflow for contributions made after the measurement date.

During fiscal year 2018, an inventory of the water and wastewater system was conducted. The study identified capital assets that were not previously recorded in the City's accounting records.

The adjustments made to the beginning net position are summarized below:

|  | Statement of Activities |   |    |             | Net Position - Proprietary Funds |              |                     |  |  |  |

Notes:

Valuation Date: Actuarially determined contribution rates are calculated as of

December 31, and become effective in January 13 months.

Methods and Assumptions Used to Determine Contribution Rate:

Actuarial Cost Method Entry Age Normal

Level Percentage of Payroll, Closed Amortization Method

Remaining Amortization Period 20 years

10 Year Smoothed Market; 15% soft corridor Asset Valuation Method

Inflation 2.50%

Salary Increases 3.50% to 10.50% including inflation

Investment Rate of Return 6.75%

Experience-based table of rates that are specific to the City's Retirement Age

plan of benefits. Last updated for the 2015 valuation pursuant

to an experience study of the period 2010 - 2014.

Mortality RP2000 Combined Mortality Table with Blue Collar Adjustment

with male rates multiplied by 109% and female rates multiplied by 103% and projected on a fully generational basis with scale BB.

Other Information: There were no benefit changes during the year.

The information in this schedule has been determined as of the City's fiscal year-end and is intended to show information for 10 years. However, until a full 10-year trend is compiled in accordance with the provisions of GASB 68, only periods of which such information is available are presented.

### CITY OF NORTH RICHLAND HILLS, TEXAS NOTES TO REQUIRED SUPPLEMENTARY INFORMATION Year Ended September 30, 2018

#### Note A. - Budgetary Information

Annual budgets are adopted on a modified cash basis for the following: General, General Debt Service, Promotional, Donations, Special Investigations, Drainage Utility, Parks and Recreation Development, Crime Control District, Gas Development, Traffic Safety, Utility, Aquatic Park, Golf, Facilities and Construction, Fleet Services, Self Insurance, and Information Technology. The General Capital Projects Fund and Grants Fund adopt project-length budgets.

Prior to September 1, the City Manager submits to the City Council a proposed operating budget for the fiscal year commencing the following October 1. The operating budget includes proposed expenditures and the means of financing them. Public hearings are conducted to obtain taxpayer comments. Prior to September 30, the budget is legally enacted through passage of an ordinance.

The appropriated budget is prepared by fund, department, and division. The City Manager is authorized to make inter-departmental and inter-fund transfers during the fiscal year as deemed necessary in order to avoid over-expenditure of particular accounts. After the budget is adopted, the City Manager is not allowed to authorize any expenditure that exceeds total funds in the overall budget without amending the budget through City Council action. There are instances where transfers on the financial statements may not tie directly to the transfers as presented in supplemental information. As a result of management directive, city practice, or efforts to more specifically identify transfers by purpose, it is possible for individual transfers to be referenced by another title consistent with how the budget was developed by staff and adopted by Council. During the fiscal year City budget appropriations were increased by \$3,699,034.

|                        |               |               | Revision Increase |  |
|------------------------|---------------|---------------|-------------------|--|
| Legally Adopted Fund   | Original      | Final         | (Decrease)        | Explanation  |
| General Fund           | \$ 46,606,612 | \$ 47,565,387 | \$ 958,775        | The bulk of the revision was due to expenditures for fleet allocations being returned to FY 16-17 levels in addition to an increase for encumbrances rolled from prior year. The bulk of the budget revision was funded as a direct transfer from the Fleet Services Fund. |
| General Debt Service   | 11,762,764    | 11,762,764    | -                 | There was no change from the Original Budget.  |
| Parks and Recreation   | 9,000,504     | 9,091,172     | 90,668            | The majority of budgetary increase was for additional expenditures at the NRH Centre Grand hall due to increases in attendance. The revision was funded through additional revenues generated by the NRH Centre.   |
| Gas Development        | 312,673       | 528,300       | 215,627           | The budgetary increase included funding for legal expenses and a contribution to reserves.   |
| Promotional            | 259,022       | 287,939       | 28,917            | The budgetary increase was for an additional contribution to reserves.   |
| Donations              | 311,099       | 406,547       | 95,448            | Additional funding was required for one-time expenditures for programs and events including NRH Roadrunner, art for Northfield Park and Spay and Neuter Program. Revenues generated from these programs covered additional funding requirements.                           |
| Special Investigations | 252,300       | 265,600       | 13,300            | Additional funding was required for public safety training and equipment. The revision was covered by additional federal forfeited funds.  |
| Drainage Utility Fund  | 1,190,524     | 1,340,858     | 150,334           | Additional funding was required for capital projects and was covered through annual drainage fees.   |
| Crime Control District | 5,380,595     | 5,426,880     | 46,285            | The budgetary increase was for prior year encumbrances and a contribution to reserves.   |
| Traffic Safety         | 1,008,016     | 1,061,792     | 53,776            | The budgetary increase was for prior year encumbrances.  |

### CITY OF NORTH RICHLAND HILLS, TEXAS NOTES TO REQUIRED SUPPLEMENTARY INFORMATION (continued) Year Ended September 30, 2018

**Note A. - Budgetary Information (continued)** 

|                             |                   |                   | Rev | vision Increase |  |
|-----------------------------|-------------------|-------------------|-----|-----------------|--|
| Legally Adopted Fund        | Original          | Final             |     | (Decrease)      | Explanation  |
| Utility                     | \$<br>34,336,777  | \$<br>36,130,719  | \$  | 1,793,942       | The budgetary increase was for prior year encumbrances, a contribution to reserves, and an increase in franchise fees  |
| Aquatic Park                | 5,268,439         | 4,581,259         |     | (687,180)       | Funding requirements were reduced in this fund as staff forecasted lower attendance at the park than originally forecasted in the adopted budget. The lower forecast was in large part due to unfavorable weather conditions during critical operating days. |
| Golf                        | 2,575,071         | 2,491,415         |     | (83,656)        | Funding requirements were reduced in this fund as staff forecasted lower attendance at the park than originally forecasted in the adopted budget. The lower forecast was in large part due to unfavorable weather conditions during critical operating days. |
| Facilities and Construction | 3,014,282         | 3,014,120         |     | (162)           | The budgetary revision reflected a decrease in contributions to reserves.  |
| Fleet Services              | 3,653,429         | 4,849,611         |     | 1,196,182       | The budgetary increase was for prior year encumbrances and the addition of a direct transfer to the General fund.  |
| Self Insurance              | 13,910,020        | 14,252,255        |     | 342,235         | The budgetary increase was an increase in the contribution to reserves and for an increase in participation in FSA accounts.   |
| Information Technology      | <br>3,525,482     | <br>3,541,735     |     | 16,253          | The budgetary increase was for prior year encumbrances and for contributions to reserves.  |
| Total                       | \$<br>142,367,609 | \$<br>146,598,353 | \$  | 4,230,744       |  |

### Note B. - General Fund Budget-to-Actual Reconciliation

An explanation of the differences between budgetary inflows and outflows and revenues and expenditures determined in accordance with generally accepted accounting principles follows:

| Net increase (decrease) to budgetary unreserved undesignated fund balance   | \$<br>1,087,079 |
|---|-----------------|
| The City budgets "appropriations from fund balance" as a resource/inflow but in GAAP statements it is not a revenue or inflow source for current year revenue recognition   | (229,141)       |
| The City budgets specific "Reserves" expenditures as an outflow but in GAAP statements it is not an expenditures: Peg Franchise Fees Reserves.  | 1,023,316       |
| Increase (decrease) in investment fair value changes and interest unavailable are not considered a resource/inflow for budgetary recognition  | (165,443)       |
| Increase (decrease) in miscellaneous revenue are not considered a resource/inflow for budgetary recognition because payment for services will be received in subsequent fiscal year.  | (63,357)        |
| Outflow of sources for prepaid expenditures for budgetary purposes are immediately recognized as an outflow upon remittance of payment in budgetary basis. GAAP statements delay expenditures recognition until the period of coverage. | (144,089)       |
| Total "Net Change in Fund Balance" from the Statement of Revenues, Expenditures, and Changes in Balances - Governmental Fund - General Fund   | \$<br>1,508,365 |

### CITY OF NORTH RICHLAND HILLS, TEXAS NOTES TO REQUIRED SUPPLEMENTARY INFORMATION (continued) Year Ended September 30, 2018

### Note C. - Parks and Recreation Development Corporation Budget-to-Actual Reconciliation

An explanation of the differences between budgetary inflows and outflows and revenues and expenditures determined in accordance with generally accepted accounting principles follows:

| Net increase (decrease) to budgetary fund balance   | \$<br>552,481 |
|---|---------------|
| The City budgets specific "Reserves" expenditures as an outflow but in GAAP statements it is not an expenditures: Net Operations from Parks Maintenance, Tennis Center, and Recreation Centre for future capital or operational needs   | 221,635       |
| Increase (decrease) in investment fair value changes and interest unavailable are not considered a resource/inflow for budgetary recognition  | (22,172)      |
| Economic Development incentives appropriated and paid for in the General Fund are reimbursed by the Park and Recreation Development Corporation Fund based on its pro rata share  | (31,679)      |
| Outflow of sources for prepaid expenditures for budgetary purposes are immediately recognized as an outflow upon remittance of payment in budgetary basis. GAAP statements delay expenditures recognition until the period of coverage. | 495,520       |
| Reclassification of Administrative Fees paid to the General Fund from other funds, which are considered a transfer of funds   | (469,207)     |
| Special funded projects are appropriated through long range capital improvement budget in which segregated and specific funding is appropriated outside of the operating budget   | <br>(72,026)  |
| Total "Net Change in Fund Balance" from the Statement of Revenues, Expenditures, and Changes in Balance - Governmental Fund - Parks and Recreation Development Corporation  | \$<br>674,552 |

### Note D. - Gas Development Fund Budget-to-Actual Reconciliation

An explanation of the differences between budgetary inflows and outflows and revenues and expenditures determined in accordance with generally accepted accounting principles follows:

| Net increase (decrease) to budgetary fund balance   | \$<br>41,239  |
|---|---------------|
| The City budgets specific "Reserves" expenditures as an outflow but in GAAP statements it is not an expenditures: Peg Franchise Fees Reserves   | 398,300       |
| Increase (decrease) in investment fair value changes and interest unavailable are not considered a resource/inflow for budgetary recognition  | (8,769)       |
| Special funded projects inflows/resources are appropriated through long range capital improvement budget in which segregated and specific funding is appropriated outside of the operating budget | <br>(2,427)   |
| Total "Net Change in Fund Balance" from the Combining Statement of Revenues, Expenditures, and Changes in Balance - Governmental Fund - Parks - Gas Development Fund                              | \$<br>428,343 |

### **Other Supplementary Information**

The NRH Centre is North Richland Hills premier fitness, aquatics and activity center and is designed to be the Centre of your active, healthy and connected world. As Tarrant County's first LEED certified recreation center, the NRH Centre is built and operated using sustainable features to minimize its impact on the environment. The Centre includes indoor aquatics, fitness, gymnasium, a senior center, and the Grand Hall for events

#### NON-MAJOR GOVERNMENTAL FUNDS

#### SPECIAL REVENUE FUNDS

The Promotional Fund accounts for the operations and expenditures for which hotel/motel occupancy taxes are used. Occupancy tax revenues are primarily to attract tourist and new businesses to the City.

The Donations Fund holds funds contributed (donated) to the City for special projects earmarked by requests or nonrecurring expenditures. It primarily collects and holds funds that are voluntarily given by the citizens via adding \$1.50 to their water utility billing which is then distributed to support the activities of the library and neighborhood services departments.

The Special Investigations Fund is mandated by state statute to account for various legal seizure and forfeiture deposits and expenditures.

The Drainage Utility Fund accounts for the establishment of drainage facilities within the municipal boundaries of the City and the subsequent billing and collection of fees so established.

The Crime Control and Prevention District Fund accounts for the accumulation and use of half-cent sales tax proceeds dedicated for crime prevention and reduction programs.

The Grants Fund is a centralized fund accounting for all private, local, state, and federal grant proceeds.

The Economic Development Fund accounts for the accumulation and expenditure of resources designed to stimulate the local economy through development and redevelopment.

The Traffic Safety Fund accounts for funds collected from various red-light traffic safety cameras. These resources assist with funding of various traffic safety projects.

Tax Increment Financing District #1 is to fund drainage improvements that would alleviate flooding problems, reduce property damage associated with the flooding, and stimulate development for the benefit of citizens within TIF #1.

#### **DEBT SERVICE FUND**

The Tax Increment Financing Districts (TIF's) Debt Service Fund is used to accumulate monies for the payment of principal, interest, and related charges on the debts of Districts No. 1 and No. 2.

The Sales Tax Revenue Debt Service Fund is used to accumulate monies for the payment of principal, interest, and related charges on sales tax revenue bonds.

NRH<sub>2</sub>O Family Water Park is North Texas' favorite family water park, conveniently located between Dallas and Fort Worth. The park features 8 water slides, a kiddie area, a large wave pool, a large lagoon-like play area, a lazy river and is open from May through September. Since NRH<sub>2</sub>O opened in 1995, it has consistently ranked amongst the top water parks in the nation

#### INTERNAL SERVICE FUNDS

Facility and Construction Services Fund – To account for building maintenance and repair services provided to numerous departments located at various sites throughout the City. Facility and Construction Services Fund operations are financed by charges to user departments.

Fleet Services Fund – To account for the maintenance, repair service, and replacement of vehicles and equipment provided to numerous departments responsible for the operation of City vehicles and equipment. Fleet Services Fund operations are financed by charges to user departments.

Self-Insurance Fund – To account for the payment of substantially all claims except for fire insurance coverage and employee life insurance coverage. Self-Insurance Fund operations are financed by charges to user departments and employee contributions.

Information Technology Fund - To account for the acquisition, maintenance, and support of computer and telephone hardware and software. Information Technology Fund operations are financed by charges to user departments.

## A. General Debt Service Fund Budget-to-Actual Reconciliation

| Net increase (decrease) to budgetary fund balance  | \$<br>38,582   |
|--|----------------|
| The City budgets "Appropriations of Fund Balances" revenues as a inflow of resources but for GAAP purposes these inflows were recognized in prior periods.                             | (6,783)        |
| Increase (decrease) in investment fair value changes and interest unavailable are not considered a for budgetary recognition   | (2,113)        |
| Total "Net Change in Fund Balance" from the Statement of Revenues, Expenditures, and Changes in Fund Balance - Governmental Fund General Debt Service                                  | \$<br>29,686   |
| B. Promotional Fund Budget-to-Actual Reconciliation  |                |
| An explanation of the differences between budgetary inflows and outflows and revenues and expenditures determined in accordance with generally accepted accounting principles follows: |                |
| Net increase (decrease) to budgetary fund balance  | \$<br>40,148   |
| Increase (decrease) in investment fair value changes and interest unavailable are not considered a for budgetary recognition   | (5,321)        |
| Outflows of sources for prepaid expenditures for budgetary purposes are immediately recognized as an outflow upon remittance of payment in budgetary basis. GAAP statements delay      | (1,011)        |
| The City budgets specific "Reserves" or "Contributions to Reserves" as expenditures or as an outflow but in GAAP statements it is not an expenditure                                   | <br>27,619     |
| Total "Net Change in Fund Balance" from the Combining Statement of Revenues, Expenditures, and Changes in Fund Balance - Non-Major Governmental Funds Promotional Fund                 | \$<br>61,435   |
| C. Donations Fund Budget-to-Actual Reconciliation  |                |
| An explanation of the differences between budgetary inflows and outflows and revenues and expenditures determined in accordance with generally accepted accounting principles follows: |                |
| Net increase (decrease) to budgetary fund balance  | \$<br>(7,922)  |
| Increase (decrease) in investment fair value changes and interest unavailable are not considered a for budgetary recognition   | (5,391)        |
| Total "Net Change in Fund Balance" from the Combining Statement of Revenues, Expenditures, and Changes in Fund Balance - Non-Major Governmental Funds Donations Fund                   | \$<br>(13,313) |

## D. Special Investigation Fund Budget-to-Actual Reconciliation

| An explanation of the differences | between budgetary    | inflows and outfl | ows and revenues and      |
|-----------------------------------|----------------------|-------------------|---------------------------|
| expenditures determined in accord | lance with generally | accepted accour   | nting principles follows: |

| Net increase (decrease) to budgetary fund balance   | \$<br>24,086    |
|---|-----------------|
| Increase (decrease) in investment fair value changes and interest unavailable are not considered a for budgetary recognition  | (2,538)         |
| Outflows of sources for prepaid expenditures for budgetary purposes are immediately recognized as an outflow upon remittance of payment in budgetary basis. GAAP statements delay expenditure recognition until the period of coverage. | <br>(2,031)     |
| Total "Net Change in Fund Balance" from the Combining Statement of Revenues, Expenditures, and Changes in Fund Balance - Non-Major Governmental Funds Special Investigation Fund  | \$<br>19,517    |
| E. Drainage Utility Fund Budget-to-Actual Reconciliation  |                 |
| An explanation of the differences between budgetary inflows and outflows and revenues and expenditures determined in accordance with generally accepted accounting principles follows:  |                 |
| Net increase (decrease) to budgetary fund balance   | \$<br>(290,500) |
| Increase (decrease) in investment fair value changes and interest unavailable are not considered a for budgetary recognition  | <br>(3,813)     |
| Total "Net Change in Fund Balance" from the Combining Statement of Revenues, Expenditures, and Changes in Fund Balance - Non-Major Governmental Funds Drainage Utility Fund   | \$<br>(294,313) |
| F. Crime Control District Fund Budget-to-Actual Reconciliation  |                 |
| An explanation of the differences between budgetary inflows and outflows and revenues and expenditures determined in accordance with generally accepted accounting principles follows:  |                 |
| Net increase (decrease) to budgetary fund balance   | \$<br>173,579   |
| Increase (decrease) in investment fair value changes and interest unavailable are not considered a for budgetary recognition  | (965)           |
| Outflows of sources for prepaid expenditures for budgetary purposes are immediately recognized as an outflow upon remittance of payment in budgetary basis. GAAP statements delay expenditure recognition until the period of coverage. | (6,314)         |
| The City budgets specific "Reserves" or "Contributions to Reserves" as expenditures or as an outflow but in GAAP statements it is not an expenditure.   | 19,374          |
| Total "Net Change in Fund Balance" from the Combining Statement of Revenues, Expenditures, and Changes in Fund Balance - Non-Major Governmental Funds Crime Control District Fund   | \$<br>185,674   |

### G. Traffic Safety Fund Budget-to-Actual Reconciliation

| Net increase (decrease) to budgetary fund balance  | \$<br>11,000    |
|--|-----------------|
| Increase (decrease) in investment fair value changes and interest unavailable are not considered a for budgetary recognition   | (6,883)         |
| The City budgets specific "Reserves" or "Contributions to Reserves" as expenditures or as an outflow but in GAAP statements it is not an expenditure.  | 636             |
| Total "Net Change in Fund Balance" from the Combining Statement of Revenues, Expenditures, and Changes in Fund Balance - Non-Major Governmental Funds Traffic Safety Fund  | \$<br>4,753     |
| H. Utility Fund Budget-to-Actual Reconciliation  |                 |
| An explanation of the differences between budgetary inflows and outflows and revenues and expenses determined in accordance with generally accepted accounting principles follows:   |                 |
| Net increase (decrease) to budgetary net position  | \$<br>3,769,480 |
| Depreciation expense is a "GAAP" recognized expense and does not represent an actual outflow of resources in the budgetary appropriations.   | (4,634,247)     |
| Certain expenses representing long term liability and the related expense recognition in "GAAP" is not recognized as an actual outflow until resources are disbursed for the activity: Other Post Employment Benefits, Net Pension Liability, and Compensating Balances. | 2,255,097       |
| The City budgets "appropriations from fund balance" as a resource/inflow but in GAAP statements it is not a revenue or inflow source for current year revenue recognition  | (6,819)         |
| Certain expenses related to construction are included in the GAAP Statement and are not reported in the budgetary basis schedule.  | 1,900,864       |
| Outflows of resources that represent debt service payments and related amortized costs for budgetary purposes are recognized as expense in budget basis statements   | 811,882         |
| Inflows of resources that represent accrued revenue and not cash receipts are not recognized as revenues in budget basis statements.   | (491,374)       |
| Special funded projects are appropriated through long range capital improvement budget in which segregated funding is appropriated outside of the operating budget   | <br>(907,523)   |
| Total "Net Change in Net Position from the Statement of Revenues, Expenses, and Changes in Net Position<br>Proprietary Funds Utility Fund  | \$<br>2,697,360 |

#### I. Aquatic Park Fund Budget-to-Actual Reconciliation

| Net increase (decrease) to budgetary net position   | \$<br>(523,160) |
|---|-----------------|
| The City budgets "appropriations from fund balance" as a resource/inflow but in GAAP statements it is not a revenue or inflow source for current year revenue recognition   | 91,409          |
| Depreciation expense is a "GAAP" recognized expense and does not represent an actual outflow of resources in the budgetary appropriations.  | (915,355)       |
| Certain expenses representing long term liability and the related expense recognition in "GAAP" is not recognized as an actual outflow until resources are disbursed for the activity: Other Post Employment Compensating Balances. | 524,638         |
| Outflows of resources for prepaid expenses for budgetary purposes are immediately recognized as an outflow upon remittance of payment in budgetary basis. GAAP statements delay expense recognition until the period of coverage.   | (9,249)         |
| Outflows of resources that represent debt service principal payments for budgetary purposes are recognized expense in budget basis statements   | 674,474         |
| Special funded projects are appropriated through long range capital improvement budget in which segregated and specific funding is appropriated outside of the operating budget   | <br>(69,523)    |
| Total "Net Change in Net Position from the Statement of Revenues, Expenses, and Changes in Net Position Proprietary Funds Aquatic Park  | \$<br>(226,766) |

### J. Golf Fund Budget-to-Actual Reconciliation

| are and a second |                 |
|--|-----------------|
| Net increase (decrease) to budgetary net position  | \$<br>(32,612)  |
| Depreciation expense is a "GAAP" recognized expense and does not represent an actual outflow of resources in the budgetary appropriations.   | (349,948)       |
| Increase (decrease) in investment fair value changes are not considered a resource/inflow for budgetary recognition  | (5,948)         |
| Outflows of resources representing expenses of prior year adjustment are recognized for budgetary purposes as reduction in reserves prior transferred. This amount represents audit adjustments that effect a prior period and prior budgetary period.   | 207,405         |
| Outflows of resources that represent debt service principal payments for budgetary purposes are recognized expense in budget basis statements  | 49,630          |
| The City budgets "appropriations from fund balance" as a resource/inflow but in GAAP statements it is not a revenue or inflow source for current year revenue recognition.   | <br>3,494       |

# **Statistical Section** (Unaudited)

The NRH water and sewer utility provides services to over 21,000 residential and business customers. The water provided by the city consistently meets or exceeds all state and federal drinking water requirements. The City of North Richland Hills purchases its drinking water, as well as sewer treatment services, from the City of Fort Worth and the Trinity River Authority as a wholesale customer. The Public Works Department Utility Division is responsible for maintenance of the city's water and sewer infrastructure.

#### **Statistical Section**

#### **Financial Trends**

These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.

## **Revenue Capacity**

These schedules contain information to help the reader assess the government's most significant local revenue source, the property tax.

## **Debt Capacity**

These schedules present information to help the reader assess the affordability of the government's current level of outstanding debt and the government's ability to issue additional debt in the future.

### **Demographic and Economic Information**

These schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.

## **Operating Information**

These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.

The Maker Spot is a 4,500 sq. ft. makerspace on the second floor of the NRH Library. The Maker Spot is a community workspace where Library cardholders can come to create, explore, collaborate and innovate. The Maker Spot, opened in 2015, was funded by a Special Projects grant from the Texas State Library and Archives and the Institute for Museum and Library Services.

Notes: Details regarding the City's outstanding debt can be found in the notes to the financial statements.

<sup>&</sup>lt;sup>1</sup> See Table 13 for additional population statistics.

<sup>&</sup>lt;sup>2</sup> See Table 5 for additional information on net taxable value.

<sup>&</sup>lt;sup>3</sup> Includes general bonded debt, other governmental activities debt, and business-type activities debt, net of premiums and discounts.

The North Richland Hills Parks & Recreation Facilities Development Corporation Capital Improvement Program is funded through a voter approved half-cent sales tax authorized to fund the development of parks and recreational facilities for the community. The Corporation was established following voter approval in January 1992.

Since its inception in 1992, many accomplishments have been achieved. 528 acres of park land have been acquired, offering the following parks and recreational services to our citizens:

- 20 miles of multi-use trails creating a complete network of trails throughout the City
- 7 community parks
- 13 neighborhood parks
- 9 linear parks
- Richland Tennis Center
- NRH<sub>2</sub>O Family Water Park
- Tipps Canine Hollow Dog Park
- Davis Emerald Pocket Park
- Stormy Plaza
- NRH Senior Center
- Common Ground NRH Community Garden

The 7 member Board of Directors is appointed by City Council and comprised of 4 City Council members and 3 citizen members.

<sup>&</sup>lt;sup>1</sup> Includes self-supporting debt.

<sup>&</sup>lt;sup>2</sup> The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable assessed value that is within the City's boundaries and dividing it by each unit's total taxable assessed value.

<sup>&</sup>lt;sup>1</sup>Excludes traffic violations.

<sup>&</sup>lt;sup>2</sup>Cubic feet.

<sup>&</sup>lt;sup>3</sup>Remodels included in error.

 $<sup>^4\</sup>mathrm{FY}\ 2009\text{-}2010$  calculated on a Fiscal Year basis and additional call types now being tracked.

 $<sup>^5\</sup>mbox{Reported}$  from the National Incident-Based Reporting System annual report.

 $<sup>^6</sup>$ Decline in response time is due to in-town traffic increasing because of the Hwy 820 expansion causing a longer drive time.

<sup>&</sup>lt;sup>7</sup>Reinspections are down due to corrected violations.

<sup>&</sup>lt;sup>8</sup>Inspection numbers unavailable for the year due to changes in the computer record management system and procedures.

<sup>&</sup>lt;sup>9</sup>Conversion to new computer record management system incomplete therefore Company Inspections are unavailable.

 $<sup>^{\</sup>rm 10} \mbox{Decrease}$  due to the installation of the Fibre Crete this year.

<sup>&</sup>lt;sup>11</sup>Increase in inspections is due to it being the first year that the record keeping has been fully migrated/implemented/online and pushed out to the companies as well as working out issues with the iPads and Firehouse software (RMS system) program.

<sup>&</sup>lt;sup>1</sup>Excludes traffic violations.

<sup>&</sup>lt;sup>2</sup>Cubic feet.

 $<sup>^3\</sup>mbox{Remodels}$  included in error.

<sup>&</sup>lt;sup>4</sup>FY 2009-2010 calculated on a Fiscal Year basis and additional call types now being tracked.

 $<sup>^5\</sup>mbox{Reported}$  from the National Incident-Based Reporting System annual report.

<sup>&</sup>lt;sup>6</sup>Decline in response time is due to in-town traffic increasing because of the Hwy 820 expansion causing a longer drive time.

 $<sup>{}^{7}\</sup>mbox{Reinspections}$  are down due to corrected violations.

<sup>&</sup>lt;sup>8</sup>Inspection numbers unavailable for the year due to changes in the computer record management system and procedures.

 $<sup>^{9}</sup>$ Conversion to new computer record management system incomplete therefore Company Inspections are unavailable.

 $<sup>^{10}\</sup>mbox{Decrease}$  due to the installation of the Fibre Crete this year.

<sup>&</sup>lt;sup>11</sup>Increase in inspections is due to it being the first year that the record keeping has been fully migrated/implemented/online and pushed out to the companies as well as working out issues with the iPads and Firehouse software (RMS system) program.

The North Richland Hills City Hall opened in May 2016. The 182,000 square foot for the new facility includes about 89,000 square feet for Public Safety operations, about 78,500 square feet for City Hall and about 14,500 square feet for Municipal Court. Prior to the opening of City Hall, city services were housed in six buildings on three different campuses.
