

DEVELOPMENT REVIEW COMMITTEE COMMENTS

WRITTEN STATEMENT OF CONDITIONS

The City of North Richland Hills received this plat on March 8, 2023. The Development Review Committee reviewed this plat on March 21, 2023. The following represents the written statement of the conditions for conditional approval of the plat. The applicant may submit a written response and revised plat that adequately addresses each condition. See the **RESUBMITTAL REQUIREMENTS** section below for further information.

1. Change the legal description of the property to Lots 49R1 and 49R2, Block 2, Stonybrooke Addition. Update this reference on the drawing, title block, dedication statement, lots and other relevant instances as noted on the marked-up print. *NRH Subdivision Regulations §110-331 (Requirements for all plat drawings – subdivision name)*
2. Convert the drawing from color to black and white. The plat will be electronically recorded, and a non-color drawing will meet those requirements. *NRH Subdivision Regulations §110-330 (Requirements for all plat drawings)*
3. There are revisions and corrections required in the owner's certificate, and these are noted on the marked-up copy of the plat. These should be updated as appropriate. *NRH Subdivision Regulations §110-331 (Requirements for all plat drawings – metes and bounds description)*
4. The County clerk recording block may be removed from the drawing. Plats are recorded electronically, and the block is not necessary. *NRH Subdivision Regulations §110-333 (Additional requirements for plat drawings – county certification)*
5. Label the area of each lot in square feet. *NRH Subdivision Regulations §110-333 (Additional requirements for plat drawings – lot areas)*
6. Add the following note to the plat: *The easements indicated on this plat are for the purpose of constructing, using, and maintaining public utilities including underground conduits, manholes, pipes, valves, posts, above ground cables, wires or combinations thereof, together with the right of ingress and egress to operate and maintain the public utilities. NRH Subdivision Regulations §110-331 (Requirements for all plat drawings – plat notes and conditions)*
7. Increase the line weight of the property boundary line so that the property boundary is differentiated from the other lines on the drawing. *NRH Subdivision Regulations §110-331 (Requirements for all plat drawings – subdivision boundary)*
8. Provide verification that each lot (individual living unit) has its own water and sanitary sewer services. If not, these services must be provided prior to recording of the plat. *NRH Public Works Design Manual §1-03 (Water system) and §1-04 (Sewerage system)*

DESIGN PRINCIPLES

The following comments represent suggested modifications to the plat drawing based on general NRH design principles and standard practices in city planning. While conformance to these principles is not required by the subdivision regulations, the applicant is encouraged to include these modifications as part of the revised plat.

1. Add the City case number near the bottom right corner of the drawings (Case PLAT23-0037).
