

Hello!

We are looking to turn a portion of our shop/building at the back of our property into a living space. The intended use for this would be for my elderly mother-in-law to move into eventually (her husband passed away last year) or as a place for family to stay when they come in from out of town. The current space that we would be remodeling is currently approximately 600 square feet and by us adding a bathroom that would bump the living space to around 750 square feet.
