Dear Caroline

As you are aware Center Point Church is now in the process of developing out the balance of our site. One of the biggest challenges to maximizing the use of our property is limited parking.

Now that the city has completed its redevelopment of the intersection of Mid-Cities and Smithfield and seeing that the City did not use the once donated property for a designated turning lane, we now ask if we could have that property back in order to enhance our parking capability.

Caroline as always, any assistance in this matter is deeply appreciated.

Humbly In His Grip,

**Jay Bruner** | Founding Pastor
