Cummins covers any products supplied by us. If there happened to be 3rd party supplier involved that would be handled internally by Cummins so that end users would not be burdened by that issue	*
51	What are your proposed exchange and return programs and policies?	Cummins does not exchange or accept returned products. In the rare case there is an issue, Cummins will fix in place or replace if the product is still under warranty. We can also provide assistance to facilitate used equipment sales or trade ins.	*
52	Describe any service contract options for the items included in your proposal.	Cummins offers multiple Preventative Maintenance contract options. It really depends upon the application and/or customer requested service.	*

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *	
53	Describe your payment terms and accepted payment methods.	Net 30 days. Standard commercial purchase order and invoice	*
54	Describe any leasing or financing options available for use by educational or governmental entities.	None at this time	*
55	Describe any standard transaction documents that you propose to use in connection with an awarded contract (order forms, terms and conditions, service level agreements, etc.). Upload a sample of each (as applicable) in the document upload section of your response.	We would provide a commercial quotation in accordance with Sourcewell contract terms. If requested we could also provide a Preventative Maintenance agreement based upon customer application/needs	*
56	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	Yes, we accept P-card and there is no fee.	*

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *	
57	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	Cummins has eliminated MSRP and List pricing for Commercial products. What we propose is a cost plus fixed mark-up on all Cummins content. In essence, instead of going from MSRP with a discount to achieve a target margin. We go from cost to achieve the target margin.	*
58	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	Cummins will offer a member price that is approx 6% below Fair Market Value. The sales person will be allowed to go lower than that price if required.	*
59	Describe any quantity or volume discounts or rebate programs that you offer.	None. Most transactions are one-off product or project	*
60	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	All Cummins pricing is based upon a target margin from cost (cost plus). We would maintain that target margin on all Cummins content. We would also offer discounts on any service requested.	*
61	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Our quotation would include all required items, less installation, that are required to fulfill the project requirements. Itemized pricing is available so that all product and services quoted are accounted for and open for review/discussion.	*
62	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	Cummins quote if based upon FOB factory with Freight allowed to first point of destination in the contiguous 48 states. There may be potential freight charges on 3rd party content, if required.	*
63	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	Freight is allowed to the first destination in the contiguous 48 states. There would be additional cost for any offshore deliveries. We could coordinate shipment or the customer could use their own freight forwarder. There would be no freight charge to the first port in the contiguous US.	*
64	Describe any unique distribution and/or delivery methods or options offered in your proposal.	While none are offered in the proposal, we do have freight options for additional cost. Dedicated truck, tandem drivers, etc	*

65	c. better than the Proposer typically offers to GPOs, cooperative procurement organizations, or state purchasing departments.	Sourcwell members would receive approx 6% lower prices than Fair market value

Table 13: Audit and Administrative Fee

Line Item	Question	Response *	
66	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcwell. This process includes ensuring that Sourcwell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcwell. Provide sufficient detail to support your ability to report quarterly sales to Sourcwell as described in the Contract template.	All projects are logged into the Cummins CRM software tool (Salesforce). This tool tracks from inquiry to won/loss to internal project status and finally won project closed. Project status "closed" is the primary sort and this determines the total quarterly sales to members. That sales total (closed in the quarter) is what is used to calculate the Sourcwell fee.	*
67	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	Please see CRM Sourcwell Report. Quarterly sales are tracked in the CRM. These includes the number of open opportunities, projects won, projects lost, projects closed.	*
68	Identify a proposed administrative fee that you will pay to Sourcwell for facilitating, managing, and promoting the Sourcwell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	1.5% of whole goods sales	*

Table 14A: Depth and Breadth of Offered Equipment Products and Services

Line Item	Question	Response *	
69	Provide a detailed description of the equipment, products, and services that you are offering in your proposal.	All commercial generator products diesel and natural gas/propane from 10kw to 3.5MW. and Automatic Transfer Switches (ATS) 40 amps to 4000 amps. These are shown by model # on the pricing sheets	*
70	Within this RFP category there may be subcategories of solutions. List subcategory titles that best describe your products and services.	Sub categories are parts, accessories, Eng-to-Order solutions. See price sheets	*

73	Related services, including design, customization, engineering, commissioning, installation, delivery, maintenance, repair, training and operation, service and maintenance agreements, decommissioning and repurposing, custom shop work, and rental services	<input checked="" type="radio"/> Yes <input type="radio"/> No	Cummins is not in the rental business, however, we do sell rental products.	*

Addenda, Terms and Conditions

PROPOSER AFFIDAVIT AND ASSURANCE OF COMPLIANCE

I certify that I am the authorized representative of the Proposer submitting the foregoing Proposal with the legal authority to bind the Proposer to this Affidavit and Assurance of Compliance:

1. The Proposer is submitting this Proposal under its full and complete legal name, and the Proposer legally exists in good standing in the jurisdiction of its residence.
2. The Proposer warrants that the information provided in this Proposal is true, correct, and reliable for purposes of evaluation for contract award.
3. The Proposer, including any person assisting with the creation of this Proposal, has arrived at this Proposal independently and the Proposal has been created without colluding with any other person, company, or parties that have or will submit a proposal under this solicitation; and the Proposal has in all respects been created fairly without any fraud or dishonesty. The Proposer has not directly or indirectly entered into any agreement or arrangement with any person or business in an effort to influence any part of this solicitation or operations of a resulting contract; and the Proposer has not taken any action in restraint of free trade or competitiveness in connection with this solicitation. Additionally, if Proposer has worked with a consultant on the Proposal, the consultant (an individual or a company) has not assisted any other entity that has submitted or will submit a proposal for this solicitation.
4. To the best of its knowledge and belief, and except as otherwise disclosed in the Proposal, there are no relevant facts or circumstances which could give rise to an organizational conflict of interest. An organizational conflict of interest exists when a vendor has an unfair competitive advantage or the vendor's objectivity in performing the contract is, or might be, impaired.
5. The contents of the Proposal have not been communicated by the Proposer or its employees or agents to any person not an employee or legally authorized agent of the Proposer and will not be communicated to any such persons prior to Due Date of this solicitation.

8. The Proposer agrees to deliver equipment, products, and services through valid contracts, purchase orders, or means that are acceptable to Sourcewell Members. Unless otherwise agreed to, the Proposer must provide only new and first-quality products and related services to Sourcewell Members under an awarded Contract.
9. The Proposer will comply with all applicable provisions of federal, state, and local laws, regulations, rules, and orders.
10. The Proposer understands that Sourcewell will reject RFP proposals that are marked "confidential" (or "nonpublic," etc.), either substantially or in their entirety. Under Minnesota Statutes Section 13.591, subdivision 4, all proposals are considered nonpublic data until the evaluation is complete and a Contract is awarded. At that point, proposals become public data. Minnesota Statutes Section 13.37 permits only certain narrowly defined data to be considered a "trade secret," and thus nonpublic data under Minnesota's Data Practices Act.
11. Proposer its employees, agents, and subcontractors are not:
 1. Included on the "Specially Designated Nationals and Blocked Persons" list maintained by the Office of Foreign Assets Control of the United States Department of the Treasury found at: <https://www.treasury.gov/ofac/downloads/sdnlist.pdf>;

**AMENDMENT #1
TO
SOURCEWELL CONTRACT #092222-CMM**

THIS AMENDMENT, effective upon the date of the last signature below, is by and between **Sourcewell** and **Cummins Inc.** (Supplier).

Sourcewell entered into a Contract, 092222-CMM, with Supplier to provide Electrical Energy Power Generation Equipment with Related Parts, Supplies, and Services, effective November 17, 2022.

Supplier has requested to modify the Contract.

NOW, THEREFORE, the parties amend the Contract to add the following:

Article 23. Limitation of Liability

Notwithstanding any other term of this Contract, and to the maximum extent permitted by applicable law, in no event shall Supplier, its officers, directors, employees, or agents be liable to the Participating Entity or any third party, whether in contract, tort, or under any other legal theory (including, without limitation, strict liability or negligence), for any indirect, incidental, special, punitive, liquidated, or consequential damages of any kind. This includes, without limitation, damages for downtime, loss of profits or revenue, lost rents, loss of data, loss of opportunity, damage to goodwill, enhanced damages, monetary claims relating to recall expenses, or property repairs, and/or damages attributable to delay—even if Supplier has been advised of the possibility of such damages.

Notwithstanding any other provision of this Contract, and to the maximum extent permitted by law, the total cumulative liability of Supplier to the Participating Entity or any third party claiming through or on behalf of the Participating Entity shall not exceed one million dollars (\$1,000,000.00 USD), unless a different liability cap is expressly agreed to in writing between the Supplier and the Participating Entity pursuant to a purchase order or other authorized transaction documentation. Nothing in this Contract shall exclude or limit liability for death or personal injury caused by a party's gross negligence or willful misconduct, or for liability arising from a party's fraud, knowing misrepresentation, or violation of applicable law. By accessing this Contract, a Participating Entity acknowledges that its sole and exclusive remedy against Supplier for any loss or damage shall be as expressly provided in this section.

Except as amended, the Contract remains in full force and effect.
