UTILITY FUND	23
AQUATIC PARK FUND	27
GOLF COURSE FUND	29
FACILITIES & CONSTRUCTION MANAGEMENT FUND	31
FLEET SERVICES FUND	33
INFORMATION SERVICES FUND	35
SELF INSURANCE FUND	37

The following document is the Quarterly Financial Report for the period ending December 31, 2016. Overall, revenues and expenditures are performing within expectations. The following highlights information contained within this report:

General Fund

- Current property tax collections trended behind the FY16 collection rate. At this point, there is no indication that overall collections will decline below projected revenue for the fiscal year. The current collection rate is regarded as a temporary trend with the expectation that it will align with the original projection in the coming months.
- Sales tax collections trended 4.9% higher through the first quarter of FY17 compared to collections for the same time period in FY16. The current collection trend is nearly 3% higher than projected in the FY 2016/17 budget.
- Total Fines and Forfeitures are running approximately 28% higher than the same period last year. The increase is the combined result of a 19% increase in citations and a higher collection rate through Municipal Court.
- Through December, the City experienced a decrease in Licenses & Permits, resulting from less construction activity compared to the same period in the previous year. This was anticipated and revenue is tracking slightly ahead of initial projections. Currently revenues total approximately 23% of anticipated collections for FY17, whereas, through December 2015 revenues composed only 21% of the total revenue received for the fiscal year. At this time, Licenses & Permit revenues are on pace to meet budget projections.
- Charges for services trended 21% higher than in FY16. The largest positive impact was Ambulance Fees, which trended 29% higher.
- Expenditures tracked within expectations.

Parks Facilities and Development Fund

- Sales tax collections trended 4.9% higher through the first quarter of FY17 compared to collections for the same time period in FY16. This current collection trend is nearly 3% higher than budgeted in the FY 2016/17 budget.
- Expenditures tracked within expectations.

Crime Control District Fund

- Sales tax collections trended 4.6% higher through the first quarter of FY17 compared to collections for the same time period in FY16. This current collection trend is nearly 3% higher than budgeted in the FY 2016/17 budget.
- Expenditures tracked within expectations.

Utility Fund

- Two factors, the repayment of an interfund loan in FY16 and the timing of an appropriation of fund balance in FY17 for Utility Capital Projects, impacted the total revenue for the Utility Fund. Excluding these two factors, the FY17 revenue was \$7,712,448 or 23%, compared to FY16 at \$8,068,366 or 22%.
- Total expenses trended higher in FY17 as a result of the timing of the Capital Project transfer. Excluding this transfer, total expenses were \$6,671,445 or 19% of budget compared to \$6,821,147 or 18% of budget in FY16.

The following report includes both financial schedules and explanatory narrative for the City's major operating funds. Staff hopes the Council finds this report helpful and informative and will be happy to address any questions or concerns you may have.

Respectfully Submitted,

While a will

Mark C. Mills

Finance Director

The General Fund Quarterly Financial Report for the period ending December 31, 2016 is provided within. Please note that some estimates are used and staff believes these reflect a conservative picture of the City's financial status. The revised budget includes adjustments and prior year encumbrances, which are items approved by Council in the prior year but paid for and completed in the current fiscal year. Prior year actuals have been included for comparison.

In total, the General Fund performed within expectations and expenditures are in line with prior year performance through December.

REVENUES

Total General Fund revenue, excluding appropriations of fund balance, trended lower than the year-to-date collections experienced in FY16. Excluding the appropriations of fund balance, \$14,122,908 was collected, compared to \$16,979,635 in FY16. This was a decrease of \$2,856,727 or roughly -17%. Specific variances impacting the decrease are outlined below; however, the majority of this decrease is directly related to the pace of property tax collections.

Property Tax

The city receives most property tax revenue between October and February, with December through February typically being the highest collection months. Current General Fund Property tax collections through December were \$8,246,001 or 54% of budget. Collections in FY16 were \$10,965,825, or 74%. Although the year-to-date revenue trailed the FY16 trend, it will continue to fluctuate as additional revenue is collected in the next few months. Signs indicate that the funds remitted in January will close the gap between actual and projected collections and that collections will be within budget. Staff will continue to provide updates in future reports.

Sales Tax

Sales tax revenue was estimated at \$2,575,178 through December compared to \$2,455,655 in FY16. Year-to-year, the city experienced a positive growth trend in sales tax revenues, which has outpaced the original year-to-date projection by roughly 3%.

Franchise Taxes

Approximately 70% of franchise fees are related to electricity and natural gas. The electric franchise is typically received in two payments. The larger of these is received in March, with a much smaller payment received in April. The natural gas franchise fee is received in July. Other franchise fees are paid periodically throughout the year.

To date, NRH received \$144,956; roughly \$50,000 less than during the same period in FY16. This was due to the timing telephone franchise fees. Last year, the city received the telephone franchise fee during the first quarter of the fiscal year, which was out of the ordinary. Typically, the City begins to receive these during the second quarter.

Other Taxes

Mixed beverage tax revenue is received quarterly, in the month following the quarter end. At the time of this report, the first quarterly payment had not yet been received.

The Payment in Lieu of Tax (PILOT) is an annual appropriation from the Utility Fund for property taxes charged on infrastructure (i.e. pipelines and other utility assets) owned by the City. This payment is made to the General Fund through twelve equal allocations taking place once each month. The allocations thru December totaled \$97,746 or 25% of budget.

Fines & Forfeitures

Fines & Forfeitures were \$553,192; an increase of \$120,172 or 28% higher than the prior year. Municipal Court Fines, which are driven primarily by the number of citations written by the Police Department and processed by Municipal Court, performed ahead of FY16 collections and the expected trend. There have been 769 more citations written compared to the same period in FY16; an increase of 19%.

Licenses & Permits

Revenue from licenses and permits totaled \$499,794 or 23% of the budget. This represented a decrease of \$103,166 compared to the prior year. The City experienced a decrease in construction related revenue during the first quarter in comparison to FY16, which was a particularly active year.

As anticipated, Building Permit revenue declined during the first quarter of FY17. Building permit revenue totaled \$193,663 or 19% of projected collections; a decrease of \$59,574 from FY16. Curb & drainage inspection fees, which are assessed on new developments, saw \$372 in fees compared to \$31,693 in prior year. The primary reason these revenues were lower is due to the decrease in new construction activity. The first quarter of FY16 saw three subdivisions and one middle school under construction, which generated an influx of various permitting fees including curb & drainage fees.

Food Service Permits totaled \$117,108 or 76% of budget. Revenues in this category are typically high during the first part of the fiscal year as a result of the timing of when permits are renewed. At the onset of the fiscal year, the city submits notices to establishments as a reminder that permit renewals are approaching. As a result, the majority of food service permits are collected during the first part of the year as establishments remit payments.

Charges for Service

Charges for Service totaled \$524,198, an increase of \$91,914 over prior year. The majority of this increase was attributed to ambulance fees. Entering the third year of the contract with the City's ambulance billing company, revenue collected is now more in line with expectations. Through December, the City received \$382,189; an increase of \$85,690, or roughly 29%.

Intergovernmental

Intergovernmental revenues are the indirect costs paid to the General Fund by the City's other funds. These are done in twelve monthly increments. Parks and CCD vary from the pattern as their allocations include funds related to quarterly Economic Development incentives, based on sales tax receipts. These incentive related transfers will be made in future months, once the related sales tax revenue is documented and received. Total intergovernmental revenues totaled \$1,144,844 or 21.15% of budget.

Consolidation Reimbursements within the Intergovernmental category through December were slightly behind expectations. The City has received \$415,327; roughly 17% of projected collections. In FY16, collections were roughly 21%. At the time of this report, not all first quarter payments from the other entities participating in the communications and detention consolidation had been received.

Miscellaneous

Miscellaneous revenue totaled \$35,770 or 2% of budget and was \$283,592 lower than collections in the prior year. This decrease was driven by the Radio Reimbursement. These funds are remitted to the City by participants in a radio consortium, for which NRH is the coordinating entity, and are based on the number of radios each entity possesses that are not currently covered under warranty. The City is currently working out contract details with the radio vendor which has delayed billing activities. Once the contract is confirmed, billing invoices will be submitted to the participating entities. The City anticipates receiving these payments in the coming weeks.

Similar to FY16, the \$1,599,289 in Designated Fund – City Hall Debt will be recognized and utilized when needed.

Appropriations of Fund Balance

Appropriations of fund balance totaled \$314,630, which included \$130,000 for the replacement of the hand-held citation writers and \$184,630 of prior year encumbrances.

EXPENDITURES

General Fund expenditures totaled \$11,071,049 or 24% of budget, which was in line with expectations. Compared to \$10,511,360 in FY16, this represented an increase of \$559,686. Highlighted below are areas which trended outside of expectations.

General Government

City Secretary's Office totaled \$89,323 in expenditures. Expenditures in this department are lower than in prior year due to the vacancy of a full-time position during the first quarter of FY17.

The Legal department expenditures totaled \$77,918 or 25% of budget. In prior years, the City contracted out all legal services. Starting in FY17, the City hired a full-time City Attorney to perform these services in-house.

Expenditures in Budget & Research were \$117,046 or 29% of budget. This represents a \$37,371 increase over prior year. The is due to the timing of when the City's quarterly payment to the Tarrant Appraisal District (TAD) occurred. To date, the City has made two of its quarterly payments to TAD, where as last year only one payment had been made during this time.

Parks & Recreation

Expenditures in Parks & Recreation totaled \$571,075 or 27% of budget; a difference of \$73,954 over prior year. This year, the annual mowing contract was paid during the first quarter. This payment did not occur until later in the year during FY16. There have also been greater expenditures to date related to tree service, maintenance of parks and grounds, and small equipment purchases.

Emergency Management

Expenditures were notably higher than in prior year; totaling \$679,555 compared to \$491,255 in FY16. The increase was due to the City paying its annual radio access fee to the city of Fort Worth during the first quarter. Last year, the FY16 payment was made during the second quarter.

The Park Fund Quarterly Financial Report for the period ending December 31, 2016 is provided within. Please note that some estimates are used and staff believes these reflect a conservative picture of the City's financial status. The revised budget includes adjustments and prior year encumbrances, which are items approved by Council in the prior year but paid for and completed in the current fiscal year. Prior year actuals have been included for comparison.

Overall, the Parks & Recreation Development Fund performed within expectations and is in line with prior year performance through December.

REVENUES

Sales tax revenue was at \$1,287,590 compared to \$1,227,827 in FY16. Collections are showing positive growth and outpaced the original year-to-date projection by roughly 3%. Tennis Center revenue increased compared to FY16, as a result of increase group lessons, private lessons, and merchandise sales.

Grants and Other income were \$112,971 lower than the prior year. In FY16, the City received funding from outside entities for the funding of the Barfield Trailhead. An additional amount was also received from John Barfield for the purchase of a golf cart for the Parks & Recreation Department to be used to highlight the City's trail system and facilitate senior citizens touring the John Barfield Trail. Those activities represented one-time funding for the trail. The \$50,000 projected in Grants for FY17 is a donation by the Barfield Family Foundation, which has not yet been received.

NRH Centre revenues totaled \$595,832 or 19% of budget, and are performing within expectations. Membership and drop-in pass revenue of \$264,364 trended slightly behind the \$269,256 received for FY16. The decline was the result of a change in the membership holiday promotion for December. The promotion ran a shorter time frame and at a lower percentage rate than what was held in prior year.

EXPENDITURES

Operating expenditures not associated with the NRH Centre totaled \$723,722 or 21% of budget. These expenditures were in line with the expected trend for this fiscal year.

Expenditures for the NRH Centre trended in line with expectations totaling \$581,698 or roughly 20% of budget compared to \$583,761 or 21% through the same period in FY16.

Non-Departmental expenditures through the first quarter of FY17 totaled \$61,068. Of this amount, \$41,307 was for the purchase of a replacement tree for Night of Holiday Magic. The previous tree was 16 years old and had reached the end of its useful life.

The Crime Control District (CCD) Quarterly Financial Report for the period ending December 31, 2016 is provided within. Please note that some estimates are used and staff believes these reflect a conservative picture of the City's financial status. The revised budget includes adjustments and prior year encumbrances, which are items approved by Council in the prior year but paid for and completed in the current fiscal year. Prior year actuals have been included for comparison.

Overall, the Crime Control District Fund performed within expectations and is in line with prior year performance through December.

REVENUES

Sales tax revenue was \$1,281,207 compared to \$1,224,323 in FY16. Collections exceeded budget projections by roughly 3%.

Each year, BISD reimburses NRH for a portion of the School Resource Officers (SROs). This reimbursement is typically received in two installments; one in December and one in May. During the period for this report, the December reimbursement had been received.

The majority of the appropriation of fund balance serves as a funding source for the Body Worn Camera (BWC) project being undertaken this year.

EXPENDITURES

Total expenditures were \$2,344,539, or 36% of budget, compared to \$1,376,484 through the same period in FY16. The Administration division expenditures were \$2,289 compared to \$107,487 in FY16. Last year, there were one-time purchases of public safety audio/visual equipment needed in the new city hall facility.

The other significant difference within the fund this year is a \$1,076,000 Transfer to Capital Projects. This serves as the primary funding source for the Body Worn Camera (BWC) project that is being undertaken this fiscal Year.

The Promotional Fund Quarterly Financial Report for the period ending December 31, 2016 is provided within. Following are revenue and expenditure highlights for this fund.

Overall the Promotional Fund performed within expectations.

REVENUES

Occupancy taxes collected from hotels and motels operating in the city is the primary source of revenue for this fund. Occupancy taxes are due on a quarterly basis and remitted within thirty days of the end of each quarter. Due to the timing of when occupancy tax payments are remitted to the City, the first quarter collections have yet to be received.

EXPENDITURES

Total expenditures were \$56,703, or 22% of revised budget. Expenditures typically outpace revenues during the first quarter as a result of when occupancy tax payments are received.

The Donations Fund Quarterly Financial Report for the period ending December 31, 2016 is provided within. This fund accounts for the operations for which voluntary contributions are used. Contributions are received through voluntary payments made in conjunction with a citizen's water bill and are used to support library activities, the Animal Adoption and Rescue Center, and special events/public art. The contributions are allocated to the Library (\$0.65), Humane Services (\$0.65), and special events and arts (\$0.20).

REVENUES

Water Bill contributions, which have been declining over the last several years, were essentially flat to FY16. The drop in revenue, excluding appropriation of fund balance, was primarily from two factors; a decline in Spay/Neuter donations and Santa Cop/Heroes and Helpers donations.

EXPENDITURES

Expenditures totaled \$47,640 compared to \$41,276 for last year; a net increase of \$6,364. Library expenditures totaling \$11,162 compared to \$985 in FY16, were the largest driving factor for the increase in expenditures. These were associated with the purchase of library materials and program supplies.

Keep NRH Beautiful expenditures were \$4,640 higher than in the previous year. This is the result of a home marking program that occurred during the first quarter of this year. This program improved the visibility of the home address markings on 218 homes.

Police expenditures were \$1,950 or 4.97% of budget; down \$10,645 from prior year. Last year, the department held a women's conference at the beginning of the fiscal year. The same conference was also held this year. In preparation for the conference this year, several of the expenditures associated with preparing the event occurred in FY16. The department also conducted it Heroes and Helpers program; however, during the time period for this report, the expenditures for the holiday event had not posted.

The Utility Fund Quarterly Financial Report for the period ending December 31, 2016 is provided within. The revised budget includes adjustments and prior year encumbrances, which are items approved by Council in the prior year but paid for and completed in the current fiscal year. Prior year actuals have been included for comparison.

Overall, the Utility Fund is performing within expectations and is in line with prior year performance through December.

REVENUES

Total revenue in the Utility Fund was \$9,312,448. This was a \$1,982,157 decrease in comparison to FY16. The largest impact in FY16 was the one-time repayment of an interfund loan for a previous land purchase. This revenue will not occur again in FY17. The impact of these funds was partially offset by an Appropriation of Fund Balance of \$1,600,000 in FY17. These funds covered the \$1,600,000 transfer for the FY17 Utility Capital projects. This transfer did not occur until later in the year during FY16. Excluding these two items, the FY16 interfund loan repayment and the FY17 Appropriation of Fund Balance, FY17 revenue would have been \$7,712,448 or 23%, compared to FY16 at \$8,068,366 or 22%.

Water Sales revenue was \$4,863,511 which trended behind prior year. There were two primary factors that caused this lag. First, there was one less billing cycle during the first quarter in comparison to FY16. This accounts for roughly \$220,000 of the variance. The remaining difference is related to lower billed water volumes. The volume in October was less that in FY16. While the volumes in November and December outpaced the previous year, volume totals for the first quarter still remain behind FY16.

NRH experienced higher Sewer Sales revenue; approximately \$120,975 greater than FY16. In FY17, the sewer pass-through rate increased from \$1.00 to \$1.24 per cubic feet of sewer usage. The City uses a winter quarter average to bill residential properties for sewer usage. This year, the residential quarter average is slightly higher than last year. Both of these factors increased sewer sales revenue for the first quarter.

Miscellaneous revenue was \$207,221, compared to \$3,480,807 in FY16. Last year, the City received proceeds from the sale of a property. The original purchase of this property was funded through an interfund loan from the Utility Fund. The proceeds from the sale were transferred back the Utility Fund as repayment.

EXPENSES

Total expenses were \$8,271,445 compared to \$6,821,147 in FY16. Excluding the planned \$1,600,000 transfer to Utility Capital Projects, total expenditures were \$6,671,445 or 19%, which trended in line with FY16 (\$6,821,147 or 18%).

North Richland Hills contracts with Fort Worth and the Trinity River Authority (TRA) for the purchase of water. Between the two entities the total charges were \$1,419,434; a decrease of \$245,410. While the rates charged by Fort Worth and TRA were higher than the previous year, the majority of the decrease is the net impact lower water volumes during the first quarter. North Richland Hills also contracts with Fort Worth and TRA for sewer treatment services. Between the two entities, the total charges were \$1,543,538; a decrease of \$10,883. As sewage is treated, Fort Worth tests the waste water to determine the makeup of the discharge (i.e. chemicals or compounds found etc.). The testing determines the rates at which it will bill NRH for sewage treatment.

The Aquatic Park Quarterly Financial Report for the period ending December 31, 2016 is provided within. Prior year actuals have been included for comparison purposes. Following are revenue and expenditure highlights for this fund.

Overall, the Aquatic Park Fund performed within expectations and is in line with prior year performance through December.

REVENUES

Total Aquatic Park revenue was \$658,809 or 12% of budget compared to \$331,807 in FY16. As a percentage, park revenue to date trended similar to the previous year. In FY16, the City exercised a bid bond for the Slide Tower Replacement project when the winning bidder notified the City that they would be unable to complete the work for the awarded amount. The revenue grouped under Other trended higher in FY16 as a result. The FY17 appropriation of fund balance, which was the funding source for NRH₂O's FY17 capital projects, was higher than through December in FY16.

EXPENSES

Total expenses for the Aquatic Park Fund were \$975,132, or 17% of budget. This was \$483,414 higher compared to \$491,718 for the same period in FY16. The increase resulted from the transfer to capital of \$531,000 for projects approved in the Capital Budget. This transfer to date exceed that of FY16 for the same period by \$431,000. Excluding the Transfer to Capital Projects in both years, total expenses in FY17 would have been \$444,132 or 8%, compared to \$391,718 or 8% in FY17.

The Iron Horse Golf Course Quarterly Financial Report through the month of November is provided within. Golf Course figures will be presented based on financial data one month behind the reporting period due to the timing of when financial data is received.

REVENUES

Revenues totaled \$432,937 or 17% of budget, compared to \$362,658 in FY16. The number of rounds played through December were 4,828 compared to 4,085 in FY16. The winter months experienced warmer, drier weather which positively impacts the number of rounds played at the golf course.

EXPENSES

Total expenses through December of FY17 totaled \$372,298 or 15% of budget compared to \$358,362 in prior year. Year-to-date expenditures were in line with expectations.

The Facilities and Construction Management Fund Quarterly Financial Report for the period ending December 31, 2016 is provided within. The revised budget includes adjustments and prior year encumbrances, which are items approved by Council in the prior year but paid for and completed in the current fiscal year. Prior year actuals have been included for comparison.

The majority of revenue for this fund is generated by facility allocations charged to the General Fund, Utility Fund, and Park Development Fund. The allocations are charged to those funds in twelve equal payments, occurring once each month.

Overall, this fund is performing in line with expectations.

REVENUES

Total revenue was \$805,263 or 26% of budget compared to \$758,254 or 24% in FY16.

Rental Property income outpaced the prior year, totaling \$18,120 or 25% of budget. Last year, there were property vacancies which impacted revenue collected.

EXPENSES

Expenses totaled \$673,980 compared to \$665,683 in the prior year.

Building Services expenses were \$449,782 compared to \$391,688. The increase over prior year is due to the inclusion of costs related to services and utilities at the New City Hall, which was not open during the first quarter of FY16.

The Transfer to Capital Budget totaled \$120,800 compared to \$165,000 in prior year. The transfer is the movement of funds to capital projects approved in the FY17 adopted budget.

The Fleet Services Fund Quarterly Financial Report for the period ending December 31, 2016 is provided within. The revised budget includes adjustments and prior year encumbrances, which are items approved by Council in the prior year but paid for and completed in the current fiscal year. Prior year actuals have been included for comparison.

The major source of revenue for the fund is generated by the vehicle allocations charged to departments for the vehicles and equipment utilized. This allocation is charged to departments in twelve equal payments, occurring once each month.

Overall, the fund performed within expectations and is in line with the prior year.

REVENUES

Total revenues were \$1,059,965 compared to \$972,693 in FY16. The major source of revenue for the fund is the vehicle allocations charged to departments. One reason the revenue in this fund appears to be trending lower than anticipated is the Sale of City Property. When adopted, the budget included an estimate for the sale of several pieces of fire equipment. As the replacement equipment was ordered, the City received trade-in credit for the equipment, reducing the overall cost of the replacement. As a result, roughly \$494,000 of this revenue will not be recognized. This will be offset by a decrease in the amount of funds transferred to capital projects for the replacement Fire equipment.

The Transfer from Utility Fund in the Other revenue category was discontinued during the budget preparation cycle. As a result, revenues in this category totaled \$24,039 compared to \$32,668 in prior year.

EXPENSES

Total expenses were \$864,288 compared to \$663,102 in FY16. Expenses in General Services were lower than the previous year due to a vacant full-time position. The other significant difference is the planned Transfer to Capital. Projected revenue from the sale of fire equipment was included as part of the transfer of funds to the related capital projects. The sale did not occur, but instead the City received trade-in credit towards the replacement equipment, reducing the overall cost. Both the Sale of City Property revenue category and the Transfer to Capital expense will be adjusted accordingly as part of the mid-year budget amendment.

The Information Technology Fund Quarterly Financial Report for the period ending December 31, 2016 is provided within. The revised budget includes adjustments and prior year encumbrances, which are items approved by Council in the prior year but paid for and completed in the current fiscal year. Prior year actuals have been included for comparison.

The major source of revenue for this fund is the allocations charged to departments for telephones and computers. These allocations are charged to departments in twelve payments, occurring once each month.

Overall, the fund performed within expectations and is in line with the prior year.

REVENUES

Total revenue was \$819,915, which represented an increase of \$55,911 over FY16. The allocations charged to departments for telephones and computers were higher than those used during FY16.

EXPENSES

Total expenses were \$870,772 or 26% of budget. This represented an increase of \$27,067 in comparison FY16. The majority of this increase resulted from the transfer of \$156,000 to a capital project for the replacement of the Fire mobile data computers (MDC's).

Microcomputer expenses for the first quarter were \$121,248 compared to \$160,856 in FY16. In anticipation of the move to new city hall, a greater portion of the computer replacement budget was utilized earlier in the FY16 so that the equipment would be available for deployment in the new building.

Data Network expenses through December totaled \$64,509 or 8% of budget; a decrease of \$75,278 from prior year. In FY16, the City incurred startup costs associated with the implementation of the Paymentus on-line payment solution. In addition, funding was included in the FY17 budget for additional maintenance costs and equipment associated with the systems at new City Hall. As of the end of the first quarter, these expenses had not been incurred, resulting in a lower percentage of the available budget being expensed.

Expenses in the GIS division were \$57,000; down \$27,055 from prior year. The timing of software license renewals was the major contributing factor to this decrease. Renewals that were paid during the first quarter for FY16 were not paid during this reporting period. These renewals are expected to be reflected in the second quarter report.

The Self Insurance Fund Quarterly Financial Report for the period ending December 31, 2016 is provided within. Prior year actuals have been provided for the purpose of comparison. Following are revenue and expense highlights.

The majority of revenue is from allocations paid by departments for health insurance and workers compensation. These allocations are charged to departments in twelve equal payments, occurring once each month. The premiums paid by employees and retirees are also reflected in this fund's revenue.

REVENUES

The allocations received by this fund tracked in line with expectations.

Other income totaled \$75,128 compared to \$158,435 in prior year. The majority of the decrease is due to the expenditure reimbursements remitted to the City. Expenditure reimbursements are stop loss reimbursements related to individual claims submitted above \$175,000, and the amount reimbursed per claim will fluctuate. This year the City received \$33,345 in expenditure reimbursements compared to \$119,861 in FY16.

EXPENSES

Expenses total \$2,192,035 compared to \$2,735,717 in FY16. The majority of the decrease was related to Health/Medical claims submitted to the City through the first quarter of FY17. Health/Medical expenses are \$572,353 lower than same period last year. Year to date health insurance claims are running under the original projections at this time.
