any comments related
to the draft Land Use
and Transportation
Plans.

The green field next to Highland Crest Dr is being demolished to build residential houses. First, this is very environmental unfriendly. It took years for those trees to grow that big. It is a shame that they are being cut down. The residents here are really enjoying the nature and the view in this green field. But it is taken away from us without even asking our opinions. Secondly, even if this area were to be developed, it was supposed to be for commercial only. Why are they building residential houses here? We'd like to have the small forest back. And please stop destroying our neighborhood.

Regarding the heavily forested area on the east side of Davis just south of Hightower. I see that you would like to re-zone this area for medium-density housing. Would these be duplexes, townhomes, or apartments? I do not know who owns this land or how the city decides where to build parks and how to fund them, but this would be such an excellent place for a park with a playground and walking trails! We live on Stephanie Court across the street from the forest, and we are thankful to be close to so much natural space and fresh oxygen. It would be heartbreaking to see it be bull-dozed and turned into dense multi-family housing. NRH has many wonderful parks throughout the city, but we are in a large section of NRH that doesn't have any walkable parks within it. This would boost the quality of life for a large portion of the city, including the new Smithfield Village. If there's no more money for parks and we need to fund-raise, I'd be happy to help. My 2-year-old loves Northfield Park, and we'd be especially grateful for even a very small playground that we could walk to. Thank you! Julia Bauman

Subject: Transportation Plan

Good evening,

Several years ago, we collected over 100 signatures expressing concerns about the lack of pedestrian facilities along Eden. Each day, people have to dodge traffic as they make their way to the Cotton Belt Trail. It's dangerous especially when it's dark and quite a few drivers speed.

In response to our petition, the City Manager told us that the right of way was constrained and a solution was not available. He told us that we could access the trail via the neighborhood. Considering the fact that I walk to the train, this is not a realistic option. Most of us were perplexed that a public use easement was not an option.

I personally think the draft transportation plan is a great step in the right direction. It's fantastic! However, politics are local and many of us who live in neighborhoods along Eden want a safe path to the Cotton Belt path along the most dangerous of Eden between Jason Court and the trail. It is narrow with a blind curve and hill. We are not looking for an urban street section but some sort of relief of having a paved trail on one side of this segment of the street.

One last request, a hawk signal would be nice where the trail crosses Rumsfeld. People speed along this street and more signalization is needed at this vehicular and pedestrian crossing.

By the way, great job on the strategic plan and transportation plan!

Randy Hutcheson

Draft Land Use and Transportation Plans - Public Comment Form

Are you a North Richland Hills resident? No

Please use this box for any comments related to the draft Land Use and Transportation Plans.

I'm a longtime DFW resident who's very concerned about the increase in car traffic and road congestion. As a result, I believe that North Richland Hills should 1) become a full Trinity Metro member city in order to begin receiving bus service (which could also connect to both the Iron Horse and Smithfield TEXRail stations), and 2) Promote people using TEXRail in order to help increase ridership and Transit Oriented Development (TOD) at and near the Iron Horse and Smithfield TEXRail stations in order to help reduce car traffic and road congestion, and also to help improve air quality.

May 30, 2019

To: Strategic Plan Committee
City of North Richland Hills
C/O: Clayton Comstock, Director
Planning & Zoning

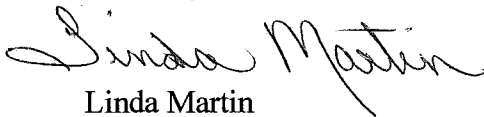

Attached is a petition for Green Valley Estates indicating the land tract owners who are opposed to the proposed "residential estate land use" designation on the proposed 2019 Comprehensive Land Use Plan being considered by the City of North Richland Hills Strategic Plan Committee. This petition represents 10 land owners who own 30.99 acres in Green Valley Estates. These ten owners represent the majority of the property in Green Valley Estates in regards to the proposed land use change. The attached petitioners want to remain on the proposed 2019 Comprehensive Land Use Plan as R-2 as shown on the 2012 Comprehensive Land Use Plan. The R-2 land planning designation has been slated for Green Valley Estates since North Richland Hills incorporated this addition.

Included in the packet:

- 1) Green Valley Estates overlay showing tract owners and appropriate designations.
Two land owners want to be considered "neutral" on this issue.
- 2) Green Valley Estates Acreage Petition Breakdown spreadsheet.
- 3) Certified copy of the petition.

This packet is being sent c/o Clayton Comstock so it can be distributed to the Strategic Plan Committee at its May 9, 2019 meeting. If Mr. Comstock needs additional information for its distribution to the committee, he can contact me at (817) 485-4229 *home* or (817) 291-8200 *cell*.
Thank you.

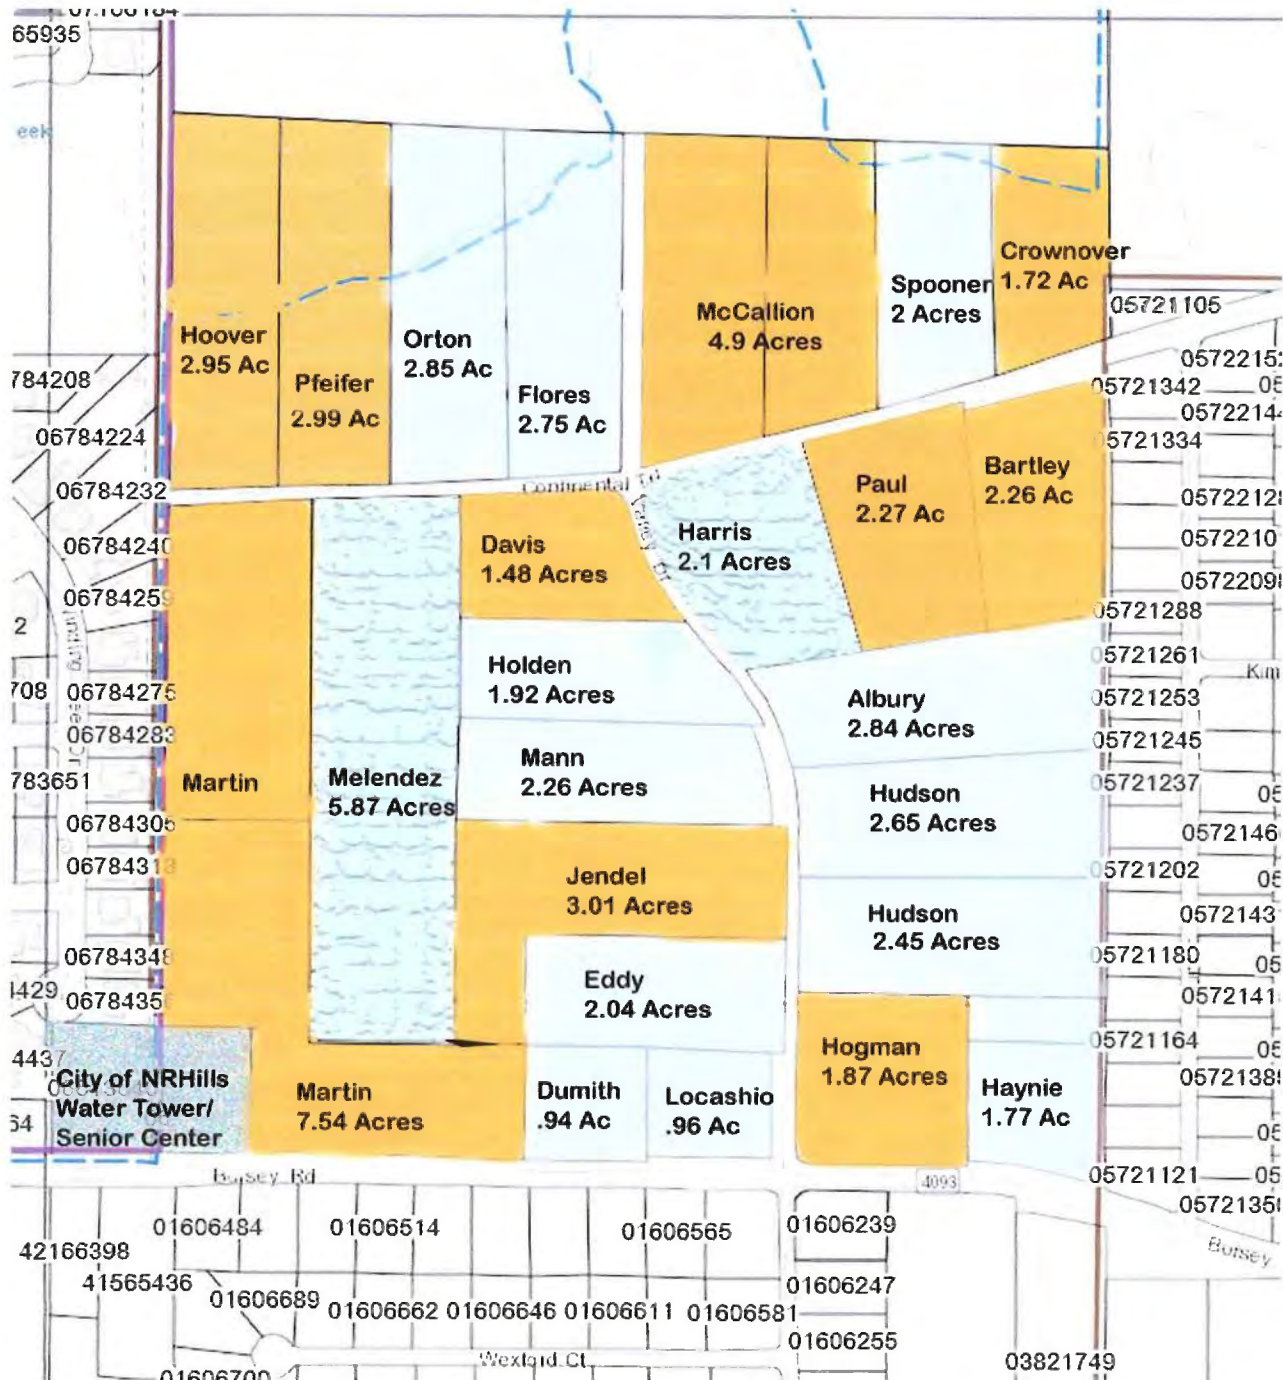

Sincerely,

Linda Martin
7300 Continental Trail
North Richland Hills

Green Valley Estate Petition for leaving the proposed Comprehensive Land Use Plan "as is" based on the City of North Richland Hills' adopted 2012 Comprehensive Land Use Plan

Of the 23 land owners in Green Valley Estates, eleven owners want to change to the proposed new residential estate land use. Ten land owners want to stay the same as adopted in the 2012 Comprehensive Land Use Plan for R-2 (petition is attached). Two land owners decided to stay neutral on the subject. Of the approximate 64.39 acres in Green Valley Estates, **the ten land owners who want to be kept "as is" hold the acreage majority in the addition** with 30.99 acres. The eleven who want to change to the new residential estate proposal own 25.43 acres.

Legend:

Gold = Owners who want to stay "as is"

Light green: Owners who are neutral

Light Blue = Owners who want proposed residential estates

Green Valley Estates Acreage Petition Breakdown

Tract Owner Name	Acres	For Change	Leave "As Is"
Hoover	2.95		2.95
